MD Training

The Department of Dermatology rotation is one of seven selective courses offered to third- and fourth-year medical students. Students spend two weeks in the clinic and attend several one-hour lectures. They see a good cross-section of patients, including those receiving primary or tertiary care at University of Iowa Hospitals & Clinics, Iowa River Landing, and VA Iowa City Health Care.

Varied electives are open to fourth-year MD students, including further clinical experience, dermatologic research, and special studies.
