Residency

The department offers 20 residency positions in pathology, which provide up to four years of training. Patients at University of Iowa Health Care and the VA Iowa City Health Care are integral to the residency programs.

Residents gain experience in systematic rotation through varied laboratory services, including surgical pathology, autopsy pathology, neuropathology, dermatopathology, cytology, clinical chemistry, clinical microbiology, hematology, immunopathology, molecular pathology, and transfusion medicine. They also have the opportunity to pursue one or two years of additional fellowship training in many pathology subspecialties. To learn more, see Education on the Department of Pathology website.
