Experience evaluating and treating women with mental illness, with some emphasis on practitioner's autonomy; four-week rotation. Requirements: psychiatry clerkship.
- PSYC:8405 Advanced Inpatient Subinternship in Medical Psychiatry** 4 s.h.
Hands-on experience in evaluation and treatment of patients with combined medical and psychiatric disease; decisions regarding appropriate consultations, diagnostic tests, treatment; etiology and pathophysiology. Requirements: MD enrollment.
- PSYC:8408 Advanced Inpatient Subinternship in Mood/Psychotic Disorders** 4 s.h.
Subinternship in adult psychiatry; experiences that maximize autonomy and responsibility; inpatient rotation focuses on one subspecialty area (psychotic disorders or mood disorders); emphasis on substantial medical comorbidity; assess and address medical and psychiatric needs of assigned patients in a collaborative and integrative fashion; assess and manage patients independently at the level of a psychiatry intern, reporting directly to the attending; call is required; didactic curriculum focuses on critical appraisal of medical literature. Prerequisites: PSYC:8301. Requirements: fourth-year MD enrollment.
- PSYC:8409 Eating Disorders** 2,4 s.h.
Inpatient rotation; emphasis on co-occurring psychiatric and comorbid medical conditions associated with eating disorders; patient assessment and management at an advanced level; direct patient care and engagement in clinical decision-making for complex patients with substantial comorbidity; call is required; student experience maximizes autonomy and responsibility; didactic curriculum; focus on critical appraisal of relevant medical literature. Prerequisites: PSYC:8301. Requirements: fourth-year MD enrollment.
- PSYC:8410 Intellectual Disability** 2,4 s.h.
In-depth two week clinical experience in the interdisciplinary approach to assessment and management of individuals with intellectual disability. Requirements: MD enrollment.
- PSYC:8411 Substance Use** 2,4 s.h.
In-depth clinical experience in assessment and management of individuals with alcohol and drug abuse. Requirements: MD enrollment.
- PSYC:8412 Emergency Psychiatry** 2,4 s.h.
In-depth clinical experience in assessment and management of acute psychiatric illness under supervision of faculty with expertise in care within this setting; clinical experiences centered in emergency department at University of Iowa Health Care. Prerequisites: PSYC:8301. Requirements: third- or fourth-year MD enrollment.
- PSYC:8413 The Thriving Physician** 2 s.h.
Two-week elective for medical students in their clinical years; designed to promote awareness, wellbeing, compassion, and career satisfaction through contemplative practices and the integration of concepts of positive psychology into daily living; through readings, discussions, and experiential activities, physicians-in-training will learn how to engage in reflective personal and professional self-care; classes will be half-day in length with time outside of class dedicated to practicing and incorporating skills into everyday activities. Requirements: MD enrollment.
- PSYC:8414 Consultation Psychiatry** 2,4 s.h.
Opportunity for in-depth clinical experience in psychiatric assessment and management of general medical and surgical patients; elective clerks serve on consultation-liaison psychiatry teams at University of Iowa Health Care and the VA Iowa City Health Care; may include opportunities for outpatient work in relevant settings (e.g., emergency psychiatry, outpatient clinics providing integrated psychiatric and medical care). Requirements: MD enrollment.
- PSYC:8415 Geriatric Inpatient Psychiatry** 4 s.h.
Rotation in Department of Psychiatry specialized inpatient geriatric psychiatry unit; students work under faculty and resident supervision.
- PSYC:8417 Advanced Psychiatry, Des Moines, IA** 4 s.h.
Medical students choose from several different options to become familiar with the practice of psychiatry in community hospital settings in the Des Moines area; evaluation and management of patients across lifespan and in subspecialty settings. Requirements: MD enrollment.
- PSYC:8450 Continuity of Care in Psychiatry** 4 s.h.
Experience in Psychiatry Continuity of Care Clinic; maximizes autonomy and responsibility in an outpatient continuous care setting. Requirements: fourth-year MD enrollment.
- PSYC:8497 Research in Psychiatry** arr.
Experience and training in practical application of scientific methodology; work with research project at psychiatric service or affiliated cooperating research centers.
- PSYC:8498 Psychiatry On Campus** arr.
Arranged by student with departmental approval. Requirements: MD enrollment.
- PSYC:8499 Psychiatry Off Campus** arr.
Requirements: MD enrollment.
