Undergraduate Research Experiences Courses (URES)

This is a list of all undergraduate research experience courses. For more information, see Undergraduate Research Experiences.

**URES:1000 First-Year Seminar** 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

**URES:3001 Introduction to Translational Research** 0-3 s.h.
Array of scientific studies translated into clinical solutions, creative ideas balanced with practical strategies for implementation at bedside, and expansive number of career opportunities becoming available in translational sciences; opportunity to learn how translational research is conceived and developed; interpreting student research in a translational paradigm; survey of translational biomedicine research program covering the scope of interdisciplinary teams and breadth of T1 to T4 research applications. Requirements: enrollment in clinical and translational science certificate program, and engagement in mentored research activity. Recommendations: successful completion of EPID:4400 highly recommended.

**URES:3002 Practicum in Clinical and Translational Science** 0-3 s.h.
How research experience translates into clinical practice; translational impact of independent research; summary of research accomplishments; outline of a translational paper that is mutually acceptable to student, preceptor, and faculty; submission of paper and completion of poster presentation describing research project and translational application of research. Prerequisites: URES:3001. Requirements: enrollment in clinical and translational science certificate program.

**URES:4130 Research Experience for Undergraduates in Microbiology** 0 s.h.

**URES:4140 Research Experiences for Undergraduates in Evolutionary Biology** 0 s.h.
Intensive hands-on experience in a research lab; students create digital exhibits in collaboration with the UI Museum of Natural History and present their research at a University-wide poster presentation.

**URES:4150 Undergraduate Medical Scientist Training Program Research** 0 s.h.

**URES:4160 Research Experiences for Undergraduates in Geospatial Approaches to Watershed Science** 0 s.h.
Intensive hands-on experience in research for students in environmental fields.

**URES:3993 Undergraduate Research and Creative Projects** 1-4 s.h.
Independent research or pursuit of a creative project under mentorship of a faculty supervisor.

**URES:3994 Undergraduate Research and Creative Projects** 1-4 s.h.
Independent research or pursuit of a creative project under mentorship of a faculty supervisor.

**URES:3995 ICRU Research Fellow** 0 s.h.
Recognition of undergraduates involved in scholarly efforts of UI faculty and research staff; work on specific research and/or creative projects under selected mentors; funded annually by the Iowa Center for Research by Undergraduates (ICRU) through a competitive application process. Requirements: selection as ICRU Fellow.

**URES:4130 Research Experience for Undergraduates in Microbiology** 0 s.h.

**URES:4140 Research Experiences for Undergraduates in Evolutionary Biology** 0 s.h.
Intensive hands-on experience in a research lab; students create digital exhibits in collaboration with the UI Museum of Natural History and present their research at a University-wide poster presentation.

**URES:4150 Undergraduate Medical Scientist Training Program Research** 0 s.h.

**URES:4160 Research Experiences for Undergraduates in Geospatial Approaches to Watershed Science** 0 s.h.
Intensive hands-on experience in research for students in environmental fields.

**URES:4170 Research Experience for Undergraduates in Nanoscience and Nanotechnology** 0 s.h.
