Oral Pathology, Radiology, and Medicine

Head
- John W. Hellstein

Professional certificates: oral and maxillofacial pathology; oral and maxillofacial radiology
Faculty: https://www.dentistry.uiowa.edu/oral-pathology-radiology-medicine-faculty
Website: https://www.dentistry.uiowa.edu/oral-pathology-radiology-medicine

The Department of Oral Pathology, Radiology, and Medicine educates predoctoral students and professional students, who may pursue graduate study along with their professional training. The department has diverse curricular responsibility and a faculty with widely varied disciplinary expertise.

D.D.S. Student Training
The department teaches Doctor of Dental Surgery and other health care students about diseases that manifest in and around the oral and maxillofacial region. Students learn about the clinical, radiographic, laboratory, histopathologic, and therapeutic management of these diseases and about their etiology and natural history. They also study identification of systemic diseases and the oral implications through physical evaluation of patients.

Programs
Professional Programs of Study
Certificates
- Certificate in Oral and Maxillofacial Pathology
- Certificate in Oral and Maxillofacial Radiology

Facilities
Facilities reserved for the Department of Oral Pathology, Radiology, and Medicine include a radiology special procedures area, an interpretation room, a surgical oral pathology laboratory, a clinical pathology laboratory with areas for histopathology, and a seminar room for small groups of graduate and undergraduate students.

In addition, the College of Dentistry has joint-use research laboratories that are well equipped and staffed for conducting research involving histology, histochemistry, materials technology, radiobiology, ultrastructure, and electron probe analysis and quantification.

Courses
Oral Pathology, Radiology, and Medicine Courses

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>OPRM:5200</td>
<td>Stomatology Literature Review 0-3 s.h. Current literature in oral and maxillofacial pathology and radiology; presentation of graduate student research; development of lectures or seminars for D.D.S. or graduate students, or continuing education for peers and practicing dentists.</td>
</tr>
<tr>
<td>OPRM:5225</td>
<td>Manifestations of Oral and Paraoral Disease 0-3 s.h. Clinical experience in diagnosing, managing patients.</td>
</tr>
<tr>
<td>OPRM:5226</td>
<td>Oral Pathology for Graduate Students 0-1 s.h. Head and neck diseases, abnormalities.</td>
</tr>
<tr>
<td>OPRM:5227</td>
<td>Surgical Oral Pathology 0-1 s.h. Experience in day-to-day operations of surgical oral pathology laboratory; advanced training in histopathologic diagnosis of oral and maxillofacial diseases. Corequisites: OPRM:5240, if not taken as a prerequisite.</td>
</tr>
<tr>
<td>OPRM:5228</td>
<td>Introduction to Surgical Oral Pathology 0-1 s.h. Day-to-day operations of surgical oral pathology laboratory; histopathologic diagnosis of oral and maxillofacial diseases.</td>
</tr>
<tr>
<td>OPRM:5230</td>
<td>Research in Oral Pathology, Radiology, and Medicine 0-3 s.h. Includes thesis preparation.</td>
</tr>
<tr>
<td>OPRM:5238</td>
<td>Introduction to Histopathology 0-1 s.h. Case studies; histopathologic diagnosis of diseases that affect oral and maxillofacial region.</td>
</tr>
<tr>
<td>OPRM:5240</td>
<td>Histopathology 0-1 s.h. Case studies; advanced training in histopathologic diagnosis of diseases that affect oral and maxillofacial region. Corequisites: ORDN:5202, if not taken as a prerequisite.</td>
</tr>
<tr>
<td>OPRM:5241</td>
<td>Hospital Oral Pathology, Radiology, and Medicine 0-3 s.h. Management of patient consultations, diagnosis, therapy at a hospital-based dental service.</td>
</tr>
<tr>
<td>OPRM:5242</td>
<td>Clinical Oral and Maxillofacial Radiology 0-3 s.h. Radiologic manifestations of diseases; emphasis on craniofacial complex.</td>
</tr>
<tr>
<td>OPRM:5243</td>
<td>Practical Oral and Maxillofacial Radiology 0-3 s.h. Clinic participation; supervision of dental and dental hygiene students, review of their cases; participation in clinical radiology conferences, laboratory exercises.</td>
</tr>
<tr>
<td>OPRM:5244</td>
<td>Technical Oral and Maxillofacial Radiology 0-3 s.h. Experience with technical maintenance of darkroom, clinical equipment; troubleshooting under supervision of radiology staff.</td>
</tr>
<tr>
<td>OPRM:5245</td>
<td>Head and Neck Radiology 0-3 s.h. Hospital-based rotation in diagnostic radiology with participation in interpretation sessions; CT, MRI, nuclear medicine, ultrasound.</td>
</tr>
</tbody>
</table>
OPRM:5246 Craniofacial Radiology 0-3 s.h.
Hospital-based rotation in diagnostic radiology; exposure to interpretive sessions on ultrasound, CT, MRI, nuclear medicine.

OPRM:5256 Advanced Oral Pathology 0-1 s.h.
Diseases involving orofacial organs; emphasis on bibliographic research, biodynamic analysis of pathologic processes, diagnostic interpretation; content adapted to student interests. Requirements: graduate standing in oral pathology.

OPRM:8120 Fundamentals of Oral Radiology 1 s.h.
Methods of clinical, radiographic examination, record keeping; correlation of basic, clinical sciences.

OPRM:8235 Oral Pathology 4 s.h.
Diseases involving orofacial organs.

OPRM:8240 Basic Pharmacology 3 s.h.
Principles of pharmacology, pharmacologic actions of drugs, and correlation with therapeutic uses.

OPRM:8245 Introduction to Clinical Oral Radiology 1 s.h.
Principles, techniques of diagnosis, radiology, clinical pathology in clinical practice.

OPRM:8355 Systemic Disease Manifestations 1 s.h.
Clinical medicine for dental students; basic information for patient evaluation.

OPRM:8360 Clinical Oral Diagnosis 1 s.h.
Diagnosis of orofacial diseases by clinical, laboratory, radiographic and treatment planning methods; clinical case analysis.

OPRM:8361 Clinical Oral Radiology arr.
Making and processing intraoral, extraoral radiographs; principles of radiographic interpretation.

OPRM:8365 Clinical Oral Pathology 1 s.h.
Oral and maxillofacial diseases: integration of the clinical, historical, radiographic features; therapeutic management.

OPRM:8368 Applied Dental Pharmacology 2 s.h.
Patients’ medications and their implications for dental treatment; clinical use of medications that dentists may prescribe; guidelines for dental prescribing.
