Oral Science

Director

- Jeffrey A. Banas (Pediatric Dentistry)

Graduate degrees: M.S. in oral science; Ph.D. in oral science

Website: https://www.dentistry.uiowa.edu/dental-research-oralscience-program

Graduate programs in oral science require that students complete courses from a core curriculum and conduct independent research leading to a thesis. The programs prepare graduates for careers in teaching and research.

Students must enroll in a professional certificate program offered by a College of Dentistry department in order to enroll in the Master of Science program in oral science. The following departments offer their certificate students the opportunity to earn M.S. degrees in oral science: endodontics, prosthodontics, operative dentistry, periodontics, and oral pathology, radiology, and medicine.

### Programs

#### Graduate Programs of Study

### Majors

- Master of Science in Oral Science
- Doctor of Philosophy in Oral Science

### Courses

#### Oral Science Courses

#### ORSC:5200 Bone and Tooth Support Structure and Implants  0,2 s.h.
Biology of bone and periodontal structures; biologic basis for therapeutic use of dental implants. Offered fall semesters of odd years.

#### ORSC:5275 Oral Microbiology and Immunology  0,2 s.h.
Principles of microbiology and immunology, aspects of microbial community development in the oral cavity, basic concepts of host/parasite interactions related to development of oral diseases; biological, immunological, and clinical manifestations induced by major oral pathogens. Offered spring semesters of odd years. Requirements: microbiology, biochemistry, and biology. Recommendations: immunology.

#### ORSC:5280 Advanced Dental Therapeutics  0-1 s.h.
Antimicrobial, analgesic, related therapies; emphasis on drug/drug interactions, dental implications of chronic cardiovascular and central nervous system medications. Offered fall semesters.

#### ORSC:5600 Research in Oral Science  arr.
Thesis research. Requirements: oral science M.S. or Ph.D. candidacy.

#### ORSC:5610 Independent Study  0-3 s.h.
Opportunity to pursue in-depth study in a particular area of interest; students meet with faculty member to design plan of study.

#### ORSC:5620 Oral Sciences Colloquium  arr.
Presentations, seminars, and discussion sessions on research presentations; career and individual development plans for graduate and postdoctoral students in the oral sciences program.
