Rehabilitation and Counselor Education, Ph.D.

Maintaining Good Standing
Ph.D. students must meet the following standards in order to remain in their degree programs and advance to candidacy and remain a candidate for a degree:
- maintain a g.p.a. of at least 3.00;
- successfully complete a practicum, internship, or equivalent professional experience;
- maintain professional behavior consistent with the ACA Code of Ethics (American Counseling Association) for students enrolled in a counseling graduate program, or the AAMFT Code of Ethics (American Association for Marriage and Family Therapy) for students in couples and family therapy, and any additional code of professional ethics adhered to in any agency in which the student completes a practicum or internship; and
- demonstrate progress toward the degree through successful completion of semester hours specified in the curriculum plan and active registration each session (exceptions may be approved by the advisor).

Each student's academic and professional progress is reviewed annually. A written report is provided to the student and a copy is placed in the student's department file.

Probational Status
Students who earn a cumulative g.p.a. lower than 3.00 are placed on probational status and are notified in writing. Students on probational status have two consecutive sessions to raise their grade-point average to the established standard. If that requirement is not met, a student may be removed from the program. Students are allowed one probational status during their program of study.

Standards
Upon completing a degree in the department, students are evaluated and are expected to have awareness, knowledge, and skills in the following areas:
- current definitions, professional standards, and appropriate professional practices regarding multiculturalism;
- what it means to be a multiculturally competent helping professional;
- integration of feedback into practice and professionalism in interpersonal interactions;
- personal limitations and strengths that could ultimately support or harm a client or student; and
- a personal plan for future practice in the field regarding multicultural relationships.

Counselor Education and Supervision
The Doctor of Philosophy program in rehabilitation and counselor education with a subprogram in counselor education and supervision (CES) requires 96 s.h. of graduate credit. The program provides students with knowledge and skills related to general counseling (including mental health and school counseling), teaching, consulting, supervising counselors, and conducting research. Graduates enter professional work as counselors, counselor supervisors, counselor educators, researchers and/or consultants, or work in other positions requiring expertise in human relations. Students may choose an emphasis in an area agreed upon by faculty advisors.

Counselor education and supervision graduates are prepared to teach the knowledge and skills required of professional counselors and to supervise beginning and advanced counselors, perform counseling interventions with individuals and groups, and teach human relations skills in colleges or universities. They provide professional consultation with counseling practitioners, educators, and policy makers about counseling program development and evaluation. They also may perform research that contributes to knowledge about counseling, supervision, and counselor education.

The program is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). The American Counseling Association (ACA) and the Association for Counselor Education and Supervision (ACES) are the professional organizations most related to program activities.

The Ph.D. curriculum includes required courses in counseling, in research tools and applications, and a dissertation. Most students complete their course work in three years and take a fourth year to complete the dissertation. Students who have not completed a master's degree program approved by the Council for Accreditation of Counseling and Related Educational Programs (CACREP) may need to remedy deficiencies by taking appropriate course work at the master's degree level.

The Ph.D. in rehabilitation and counselor education with a subprogram in counselor education and supervision requires the following work.

Required Courses

All of these:

RCE:7255 Advanced Career Development and Counseling 3
RCE:7347 Home/School/Community: System Interventions 3
RCE:7353 Advanced Counseling and Psychotherapy 3
RCE:7357 Advanced Group Counseling and Psychotherapy 3
RCE:7360 Advanced Practicum in Counseling (section 2) 3
RCE:7380 Internship in Teaching 3
RCE:7385 Teaching and Learning in Higher Education 3
RCE:7400 Seminar: Ethics and Issues in Counseling 3
RCE:7448 Integrated Developmental Theory and Counseling 3
RCE:7451 Advanced Multiculturalism 3
RCE:7454 Supervision Theory and Practice 3
RCE:7455 Internship in Supervision 3
The comprehensive examination consists of an oral defense of a student's portfolio, which covers six professional competency domains in counselor education, and an exam on the minor area. The examination may be taken during a student's final semester of course work, which typically includes an internship.

**Comprehensive Examination**

The major research project culminating in the doctoral thesis may be on any topic related to counseling and counselor education. The thesis advisor and the examining committee approve the topic and procedures at a formal prospectus meeting. The final oral examination on the thesis is conducted by the examining committee. Students usually earn 10 s.h. for dissertation work, but in some instances they may earn up to 15 s.h. The dissertation committee must include at least two counselor education and supervision faculty members.

**Required Research Courses**

Students must complete a specific sequence of research courses which include distributed course work in both qualitative and quantitative areas. They select from doctoral research courses listed under RCE Doctoral Research Requirements on the Department of Rehabilitation and Counselor Education website.

**Elective Minor Area**

The program offers an elective specialty in rehabilitation counselor education. This special emphasis advances individuals’ research, teaching, clinical supervision, and leadership interests in areas that address a variety of disability-related issues and the training of rehabilitation counselors in various settings.

The National Council on Rehabilitation Education is an additional professional organization closely related to this specialty area.

Students who chose to fulfill requirements for this specialty area also complete the following.

RCE:7465 Internship in Clinical Practice (at least 240 hours) 3

At least one advanced course in psychological or educational measurement 3

**Elective Minor Area**

The program offers an elective specialty in rehabilitation counselor education. This special emphasis advances individuals’ research, teaching, clinical supervision, and leadership interests in areas that address a variety of disability-related issues and the training of rehabilitation counselors in various settings.

**Dissertation**

Work for the doctoral dissertation employs a student’s independent skills in conducting original research. The dissertation process is supervised by a student’s advisor. Depending on a student's research questions, the dissertation may require quantitative, qualitative, or mixed methods and may involve data collection or the secondary analysis of an existing data set. The thesis advisor and the examining committee approve the topic and procedures at a formal prospectus meeting. The final oral examination on the thesis is conducted by the examining committee.

**Admission**

Applicants to the program must meet the department’s general admission requirements. They should have a graduate g.p.a. of at least 3.00 and a Graduate Record Exam (GRE) General Test combined verbal and quantitative score of at least 300 on the revised test or at least 1100 on the old test. They also must hold a master's degree in couple and family therapy/marriage and family therapy from a Commission on Accreditation for Marriage and Family Therapy Education (COAMFTE) accredited program or the equivalent.

Students are admitted for fall entry. All application materials should be received on or before December 31, when the faculty begins evaluating applications. The program requires an interview with the faculty, in person or by telephone. Generally, the interview is scheduled once complete application materials have been received.
