The Interdepartmental Studies Program (ISP) gives students the opportunity to choose a plan of study in one of three tracks: applied human services, business studies, or health science. Each track blends coursework from a variety of departments, fostering awareness of how these career fields cut across traditional academic disciplines.

Students who plan to seek employment immediately after graduation should familiarize themselves with the educational background and qualifications required by employers and should include appropriate courses in their study programs.

Students preparing for advanced study should become familiar with the admissions requirements of graduate or professional schools that interest them. The earlier students decide to pursue graduate or professional study, the easier it is to complete the necessary prerequisites.

The Interdepartmental Studies Program is one of the academic units in the Division of Interdisciplinary Programs.
