Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the third semester begins: math through MATH:1850 Calculus I and MATH:1860 Calculus II; and PHYS:1701 Physics I and PHYS:1702 Physics II.

Before the fourth semester begins: ASTR:1771 Fundamental Astronomy I: The Solar System and Exoplanets.

Before the fifth semester begins: ASTR:1772 Fundamental Astronomy II: Evolution of Stars, Galaxies, and the Universe, PHYS:2703 Physics III, PHYS:2704 Physics IV, and at least one more course in the major.

Before the seventh semester begins: three more courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: three more courses in the major.

Before or during the eighth semester: ASTR:4850 Observational Techniques in Astronomy.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.
