## Physics, BA

## Requirements

The Bachelor of Arts with a major in physics requires a minimum of 120 s.h., including at least 44 s.h. of work for the major (minimum of 24 s.h. in physics plus 20 s.h. in supporting coursework). The BA program requires fewer physics courses than the BS program does, giving students a wider choice of electives. Students must maintain a gradepoint average of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core.
The major is designed for students who wish to build a foundation of knowledge in physics but do not plan a research-oriented career in the discipline. The BA program also is good preparation for students interested in secondary school science teaching; see "Teacher Licensure" below. Bachelor of Arts students majoring in physics who are interested in science teaching and in earning a graduate degree may enroll in a combined degree program offered by the College of Liberal Arts and Sciences and the College of Education; see "BA/MAT (Science Education Subprogram)" under Combined Programs [p. ] in this section of the catalog.
Students who earn a BA in physics may not earn a BS in applied physics or a BS in physics.
The BA with a major in physics requires the following courses or their equivalents. Substitutions may be allowed by exception through the department.

| Requirements | Hours |
| :--- | :--- |
| Mathematics Courses | 8 |
| Physics Courses | $15-19$ |
| Elective Physics Courses | $9-10$ |
| Supporting Coursework | 12 |

## Mathematics Courses

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| Both of these: | Calculus I | 4 |
| MATH:1850 | Calculus II | 4 |
| MATH:1860 |  | 4 |
| Or both of these: |  | 4 |
| MATH:1550 | Engineering Mathematics I: <br> Single Variable Calculus | 4 |
| MATH:1560 | Engineering Mathematics II: <br> Multivariable Calculus | 4 |

## Physics Courses

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| These three courses: |  |  |
| PHYS:1701 | Physics I | 4 |
| PHYS:1702 | Physics II | 4 |
| PHYS:2703 | Physics III | 4 |
| Or these two courses: |  |  |
| PHYS:1611 | Introductory Physics I | 4 |
| PHYS:1612 | Introductory Physics II | 4 |

PHYS:2704
PHYS:3756
Physics IV 4

## PHY:3756 Intermediate Laboratory

$\begin{array}{ll}\text { Course \# Title Hours } \\ \text { Three of these: } & \end{array}$
Three of these: Intermediate Mechanics 3
PHYS:3710
PHYS:3741 Introduction to Quantum 3
PHYS:3811 Electricity and Magnetism I 3
PHYS:3850 Electronics 4
PHYS:4720 Introductory Optics 3
PHYS:4728 Introductory Solid State 3
Physics
PHYS:4740 Elementary Particles and 3
Nuclear Physics
PHYS:4905 Special Topics in Physics arr.

## Supporting Coursework

Students should work with their academic advisor to select courses that fit with their plan of study.

| Course \# $\quad$ Title | Hours |
| :--- | ---: |
| Coursework from one these STEM subject | 12 |
| areas or from coursework required for teacher |  |
| licensure |  |
| actuarial science (prefix ACTS) |  |
| biochemistry and molecular biology (prefix |  |
| BMB) |  |
| biology (prefix BIOL) |  |
| chemistry (prefix CHEM) |  |
| computer science (prefix CS) |  |
| earth and environmental sciences (prefix EES) |  |
| engineering (subject to departmental |  |
| approval) |  |
| geography (prefix GEOG) |  |
| mathematics (prefix MATH), except |  |
| MATH:1210 |  |
| physics (prefix PHYS) |  |
| psychology (prefix PSY) |  |
| statistics (prefix STAT) |  |

In planning this work, they should be guided by the College of Liberal Arts and Sciences maximum hours rule: students earning a BA may apply a maximum of 56 s.h. earned in one department to the minimum 120 s.h. required for graduation, whether or not the coursework is accepted toward requirements for the major. Students who earn more than 56 s.h. from one department may use the additional semester hours to satisfy requirements for the major (if the department accepts them), and the grades they earn become part of their grade-point average, but they cannot apply the additional semester hours to the minimum 120 s.h. required for graduation.

## Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.
To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the

College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

## Double Major in Physics and Astronomy

Students working toward a Bachelor of Arts with a double major in physics and in astronomy must complete all requirements for both majors and must earn a minimum of 56 s.h. outside the Department of Physics and Astronomy in order to graduate. Students interested in earning a double major should consult with their advisors. See Requirements for a Bachelor's Degree on the College of Liberal Arts and Sciences website.
