Physics, Minor

Requirements

The undergraduate minor in physics requires a minimum of 15 s.h. in physics course work, including 12 s.h. taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass.

The 12 s.h. taken at the University of Iowa must be chosen from these:
