

# Occupational and Environmental Health, MS

## Combined Programs

### **MS/MS in Urban and Regional Planning**

The combined Master of Science in occupational and environmental health/Master of Science in urban and regional planning program requires 65 s.h. of graduate credit. For information about the graduate program in urban and regional planning, see the MS in urban and regional planning (Graduate College) in the catalog.

Separate application to each degree program is required; applicants must be admitted to both programs before they may be admitted to the combined degree program.
