## Master of Accountancy, MAc

## Requirements

The Master of Accountancy requires 30 s.h. beyond the BBA. The program permits students to specialize in accounting areas according to their interests and objectives. It builds on the technical skills acquired in the undergraduate program, broadens students' perspectives on the role of accounting in organizations and decision-making, and further develops written and oral communication skills. The 30 s.h. required for the MAc must include at least 12 s.h. in graduate-level accounting courses and at least 21 s.h. in courses numbered 5000 or above. Some work for the specialization areas is cross-disciplinary, with courses from other departments as well as accounting.
Students from a variety of academic backgrounds enter the MAc program. Those who enter with an undergraduate degree in accounting can expect to complete the degree in 12 months. Those who enter with a non-accounting undergraduate degree typically require four semesters to complete the MAc. Study plans are adjusted to reflect each student's particular academic background; see "Students Without Undergraduate Accounting Degrees" below.

The Master of Accountancy requires the following coursework. Students complete the requirements for their chosen specialization or for the core program.

## Specialization in Financial Accounting/Auditing

## Specialization in Business Analytics

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| Accounting Courses |  |  |
| Total of 12 s .h. |  |  |
| This course: |  |  |
| ACCT:9140 | Advanced Auditing | 3 |
| Three of these: |  |  |
| ACCT:9040 | Financial Statement Analysis and Forecasting | 3 |
| ACCT:9050 | Taxes and Business Strategy | 3 |
| ACCT:9120 | Design and Use of Cost Management Systems | 3 |
| ACCT:9130 | Financial Reporting: Theory and Practice | 3 |
| Business Analytics Courses |  |  |

| General Electives |  |  |
| Total of 9 s |  | 9 |

## Students Without Undergraduate Accounting Degrees

Coursework for students who enter the program with a nonaccounting bachelor's degree is determined by each student's background and interest area. In addition to meeting the core program requirements for the MAC, students typically take a combination of undergraduate and MBA courses to remove academic deficiencies in quantitative methods, business, and accounting. Students with a bachelor's degree in another area of business typically are required to take 45-51 s.h. in order to complete the MAC program. Those with degrees outside of business and with no accounting courses typically are required to take 57-60 s.h.
