Economics

Interim Chair
• Jarisu "Jay" Sa-Aadu

Undergraduate major: economics (B.A., B.S., B.B.A.)
Undergraduate minor: economics
Graduate degrees: M.A. in economics; Ph.D. in economics
Faculty: https://tippie.uiowa.edu/people?departments=169
Website: https://tippie.uiowa.edu/economics

Economics is the study of how societies allocate limited resources to achieve competing ends. Using both empirical and deductive methods, economists analyze incentives, constraints, organizational forms, and market forces to understand patterns of production, exchange, and consumption of goods and services. Economics treats diverse issues such as wealth and poverty, government expenditures and taxation, prosperity and depression, inflation and unemployment, relations between management and labor, economic growth, environmental protection, health care delivery, the war on drug abuse, free trade versus protectionism, U.S. competitiveness in international markets, and the quality of American education.

The Department of Economics offers degree programs for undergraduates and for graduate students. It also partners with the Departments of Philosophy, Political Science, and Sociology to offer the undergraduate major in ethics and public policy, an interdisciplinary program administered by the Department of Philosophy (College of Liberal Arts and Sciences); see Ethics and Public Policy in the Catalog.

Undergraduate Economics Forum
Students are invited to join the undergraduate economics forum. The group sponsors programs to help students plan for careers or graduate study and holds social events, special lectures, and round-table discussions. It provides opportunities for students to meet other economics majors and department faculty members.

Special Seminar
Each year the department offers a seminar program that brings eminent economists from other universities and from government agencies to the University of Iowa campus. Presentations by Department of Economics faculty members and students also are featured.

Courses for Nonmajors
Students in the College of Liberal Arts and Sciences may wish to use economics courses as part of other majors or the General Education Program. The introductory courses ECON:1100 Principles of Microeconomics and ECON:1200 Principles of Macroeconomics are approved for the Social Sciences area of General Education; they introduce the field of economics and the specialized topics of upper-division courses. The intermediate theory courses ECON:3100 Intermediate Microeconomics and ECON:3150 Intermediate Macroeconomics provide a deeper foundation in the core theories and methods of the discipline. They serve as preparation for upper-division field courses or as terminal courses in an economics study plan.

Course work in economics relates to majors in many other fields. For example, political science majors could select ECON:3650 Policy Analysis; international studies majors, ECON:3345 Global Economics and Business; environmental policy and planning majors, ECON:3625 Environmental and Natural Resource Economics; pre-law students, ECON:3790 Antitrust Economics and ECON:3800 Law and Economics; mathematics and engineering majors, ECON:3100 Intermediate Microeconomics and ECON:4190 Mathematical Economics; and statistics majors, ECON:4800 Introduction to Econometrics.

Programs

Undergraduate Programs of Study

Majors
• Major in Economics (Bachelor of Arts)
• Major in Economics (Bachelor of Science)
• Major in Economics (Bachelor of Business Administration)

Minor
• Minor in Economics

Graduate Programs of Study

Majors
• Master of Arts in Economics
• Doctor of Philosophy in Economics

Courses

Students may take ECON:1100 Principles of Microeconomics and ECON:1200 Principles of Macroeconomics in either order or simultaneously. They are approved for the Social Sciences area of the College of Liberal Arts and Sciences General Education Program.

Qualified undergraduates may enroll in graduate-level courses with consent of the department chair.

Economics Courses

ECON:1100 Principles of Microeconomics 4 s.h.
Organization, workings of modern economic systems; role of markets, prices, competition in efficient allocation of resources and promotion of economic welfare; alternative systems; international trade. Requirements: B.B.A. students cannot use this course for General Education social sciences. GE: Social Sciences.

ECON:1200 Principles of Macroeconomics 4 s.h.
National income and output, employment, and inflation; money, credit; government finance; monetary, fiscal policy; economic growth, development; international finance. Requirements: B.B.A. students cannot use this course for General Education social sciences. GE: Social Sciences.

ECON:1300 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities).
ECON:1999 Introduction to Research in Business 1 s.h.
Introduction to research in business, including scope and methods of business research, questions for which business research seeks answers, and impact of business research on society; weekly seminars include discussion and exploration and serve as preparation for engaging in mentored research. Same as BUS:1999.

ECON:2800 Statistics for Strategy Problems 3 s.h.
Continuation of STAT:1030; working knowledge of statistical techniques; scientific data-based approach to problem formulation and solution; statistical techniques in the context of real data analysis; assessment of defects in statistical analyses; using data for making business decisions; choosing appropriate statistical procedures; developing skill in communicating statistical results to audiences without knowledge of statistics. Prerequisites: (STAT:1030 or STAT:2010 or STAT:2020 with a minimum grade of B or STAT:3100 or STAT:3101 or STAT:3120 or STAT:3510 with a minimum grade of B or STAT:4100 or BIOS:4120 or PSQF:4143 with a minimum grade of B) and (MATH:1380 or MATH:1460 or MATH:1550 or MATH:1850 or MATH:1860).

ECON:3100 Intermediate Microeconomics 3 s.h.
Economic theory of the behavior of consumers, producers, and other economic agents; role of markets in coordinating economic activity; conditions that markets require for efficient allocation of resources; market imperfections; strategic behavior of economic actors. Prerequisites: ECON:1100 and (MATH:1380 or MATH:1460 or MATH:1550 or MATH:1850 or MATH:1860).

ECON:3150 Intermediate Macroeconomics 3 s.h.
Measurement of macroeconomic indicators; economic growth and business cycles; use of macroeconomic models to study the role of government fiscal and monetary policies. Prerequisites: ECON:1200 and (MATH:1380 or MATH:1460 or MATH:1550 or MATH:1850 or MATH:1860).

ECON:3250 American Economic History 3 s.h.
Prerequisites: (ECON:1100 and ECON:1200) or (ECON:1100 and HIS:1261). Same as HIST:3360.

ECON:3325 Personnel Economics 3 s.h.
Microeconomic analysis of labor markets, related institutions; labor supply decisions made by workers, labor demand decisions made by firms, market equilibrium; economic analysis of unions; returns to education; family decisions. Prerequisites: ECON:1100.

ECON:3335 Money, Banking, and Financial Markets 3 s.h.
Role of money, institutions in determination of income, employment, prices in domestic and world economy. Prerequisites: ECON:1100 and ECON:1200.

ECON:3345 Global Economics and Business 3 s.h.
Modern theories of international trade and investment; role of tariffs and other restrictions on international trade; foreign exchange markets, international monetary arrangements, international economic policy. Prerequisites: ECON:1100 and ECON:1200.

ECON:3350 Industry Analysis 3 s.h.
Structural evolution; imperfect competition; resource allocation; development of public policy on monopoly; selected industries. Prerequisites: ECON:1100.

ECON:3355 Economic and Business Forecasting 3 s.h.
How to develop and utilize forecasts; emphasis on modern statistical methods and software applied to quantitative forecasting problems; specific applications to business and economics include forecasting sales, market prices, inventory, macroeconomic factors (interest rates, exchange rates, levels of employment). Prerequisites: ECON:1100 and ECON:1200 and (ECON:2800 or ECON:4800 or STAT:3200).

ECON:3370 Household Finance 3 s.h.
Application of micro- and macro-economic theory to economic decisions of families and households; practical and theoretical issues in income generation, spending and saving decisions, risk management, and asset allocation. Prerequisites: ECON:1100 and ECON:1200.

ECON:3610 Development of Local and Regional Economies 3 s.h.
Theories, methods, and public policy in regional economic development; business and industrial locations; theories of regional growth and development; tools for regional economic analysis; technology and knowledge economy; globalization and trade; economic development finance and policy. Prerequisites: ECON:1100. Same as URP:3136.

ECON:3620 Economic Growth and Development 3 s.h.
Determinants of rising living standards; accumulation of physical and human capital; predictions of economic growth models compared to observed changes in living standards. Prerequisites: ECON:1100 and ECON:1200.

ECON:3625 Environmental and Natural Resource Economics 3 s.h.
Environmental and resource use problems; efficient mechanisms and other policies for environmental protection, management of common property resources. Prerequisites: ECON:1100. Same as URP:3135.

ECON:3640 Regional and Urban Economics 3 s.h.
Theory of location and regional development; central place theory; why cities exist and trade with one another; models of land use patterns, rents; empirical tests of models; policy applications. Prerequisites: ECON:1100. Same as URP:3134.

ECON:3650 Policy Analysis 3 s.h.
Economic functions of government in modern economies; economic decision making; budgetary processes; effects of government expenditures, taxation on allocation of resources, distribution of income, economic growth, stability. Prerequisites: ECON:1100.

ECON:3690 Sports Economics 3 s.h.
Theory and literature of economic issues in professional sports; issues such as relative advantages of large-and small-market teams, city subsidies for baseball and football stadiums, star players’ true value to their teams; ideas from introductory economics (such as demand and cost curves) combined with additional economic theory, statistical evidence, and information about particular sports. Prerequisites: ECON:1100.

ECON:3750 Transportation Economics 3 s.h.
Overview of transportation markets—intercity, rural, urban; transportation modes—rail, highway, air, water, pipeline, transit; issues in finance, policy, planning, management, physical distribution, and environmental, economic, and safety regulation. Recommendations: ECON:1100 and ECON:1200. Same as GEOG:3940, URP:3350.

<th>Course Title</th>
<th>Credits</th>
<th>Description</th>
<th>Prerequisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON:3760</td>
<td>Health Economics</td>
<td>3 s.h.</td>
<td>Structure of America's health care industry; economic analysis applied to its problems of production, pricing, distribution; cost-effectiveness; financing of medical costs; role of government.</td>
<td>ECON:1100.</td>
</tr>
<tr>
<td>ECON:3770</td>
<td>Urban Transportation</td>
<td>arr.</td>
<td>Transportation in the urban market; urban transport modes, technologies, costs, pricing, and ways to develop and analyze urban policy in order to promote city livability and sustainability; development of urban transportation and transport operations in the U.S. and worldwide; urban transport policies, plans, and policy development processes; major urban transportation issues, investigation of possible means of attacking urban transportation issues.</td>
<td>ECON:1100. Same as URP:3360.</td>
</tr>
<tr>
<td>ECON:3790</td>
<td>Antitrust Economics</td>
<td>3 s.h.</td>
<td>Topics in federal antitrust policy; merger policy; monopolization, predatory pricing, collusion, vertical restrictions, resale price maintenance, enforcement; case law, economics literature.</td>
<td>ECON:3100 or LAW:8146.</td>
</tr>
<tr>
<td>ECON:3800</td>
<td>Law and Economics</td>
<td>3 s.h.</td>
<td>Law examined through analytic tools of microeconomics; impact of legal rules on resource allocation, risk bearing, distribution of economic well-being.</td>
<td>ECON:1100.</td>
</tr>
<tr>
<td>ECON:3870</td>
<td>Federal Reserve Challenge</td>
<td>1 s.h.</td>
<td>Experience what Federal Reserve economists do every day: study the real U.S. economy, make forecasts and policy recommendations, defend their views to academic and professional economists; development of analytical skills, teamwork, how to build presentations.</td>
<td>ECON:3100 and ECON:3150.</td>
</tr>
<tr>
<td>ECON:3999</td>
<td>Honors Seminar</td>
<td>1-3 s.h.</td>
<td>Research topics and methods in business. Requirements: honors standing. Same as BUS:3999.</td>
<td></td>
</tr>
<tr>
<td>ECON:4050</td>
<td>Readings and Independent Study in Economics</td>
<td>arr.</td>
<td>Economics of natural resources; interaction between economic theory, empirical evidence, and public policy; land, water, fish, trees, minerals; externalities.</td>
<td></td>
</tr>
<tr>
<td>ECON:4090</td>
<td>Natural Resource Economics</td>
<td>3 s.h.</td>
<td>Neoclassical model of international trade; imperfect competition and international trade and investment; role of trade barriers; regional trade agreements and the World Trade Organization.</td>
<td>ECON:3100.</td>
</tr>
<tr>
<td>ECON:4110</td>
<td>International Economics</td>
<td>3 s.h.</td>
<td>Basic concepts of game theory including dominance, backward induction, Nash equilibrium, evolutionary stability, commitment, credibility, asymmetric information, adverse selection, signaling; provides students with a working understanding of game theory; examples drawn from economics and politics.</td>
<td></td>
</tr>
<tr>
<td>ECON:4180</td>
<td>Industrial Organization</td>
<td>3 s.h.</td>
<td>Market structure; effects of business practices, informational problems on market structure; appraisal of antitrust policies, government regulation of business.</td>
<td>ECON:3100.</td>
</tr>
<tr>
<td>ECON:4190</td>
<td>Mathematical Economics</td>
<td>3 s.h.</td>
<td>Mathematical structure of economic principles, problems, systems; may include constrained optimization, choice under uncertainty, general equilibrium and welfare economics, dynamical systems and control theory, game theory.</td>
<td></td>
</tr>
<tr>
<td>ECON:4200</td>
<td>Game Theory</td>
<td>3 s.h.</td>
<td>Basic concepts of game theory including dominance, backward induction, Nash equilibrium, evolutionary stability, commitment, credibility, asymmetric information, adverse selection, signaling; provides students with a working understanding of game theory; examples drawn from economics and politics.</td>
<td></td>
</tr>
<tr>
<td>ECON:4700</td>
<td>Topics in Analytical Economics</td>
<td>arr.</td>
<td>Topics vary. Prerequisites: ECON:3150 and ECON:3100.</td>
<td></td>
</tr>
<tr>
<td>ECON:4800</td>
<td>Introduction to Econometrics</td>
<td>3 s.h.</td>
<td>Single equation linear statistical models; estimation and hypothesis testing; serial correlation; heteroscedasticity; generalized least squares estimation; specification analysis; errors in variables; emphasis on interpretation, application of econometric models, methods, use of computers.</td>
<td></td>
</tr>
<tr>
<td>ECON:4900</td>
<td>Academic Internship</td>
<td>arr.</td>
<td>Participation in approved internship program (e.g., Washington Center Internships).</td>
<td></td>
</tr>
<tr>
<td>ECON:4999</td>
<td>Honors Thesis in Economics</td>
<td>3 s.h.</td>
<td>Independent student project directed by faculty or staff advisor; culminates in thesis that conforms to University Honors Program guidelines; may include empirical research, library research, applied projects. Requirements: economics majors admitted to the College of Liberal Arts and Sciences (B.A., B.S. programs) are not required to be admitted to the University of Iowa Honors Program to enroll in ECON:4999; economics majors admitted to the Tippie College of Business must be admitted to the Tippie honors program to enroll in ECON:4999.</td>
<td></td>
</tr>
<tr>
<td>ECON:5000</td>
<td>Economic Analysis I</td>
<td>3 s.h.</td>
<td>Basic metric topology, convex analysis, function spaces, measure theory and integration.</td>
<td></td>
</tr>
<tr>
<td>ECON:5005</td>
<td>Real Analysis for Economics</td>
<td>2 s.h.</td>
<td>Basic metric topology, convex analysis, function spaces, measure theory, and integration.</td>
<td></td>
</tr>
<tr>
<td>ECON:5010</td>
<td>Economic Analysis II</td>
<td>3 s.h.</td>
<td>Behavior under uncertainty, macroeconomic models; dynamic programming, asset pricing, saving, consumption.</td>
<td></td>
</tr>
<tr>
<td>ECON:5015</td>
<td>Dynamic Programming</td>
<td>2 s.h.</td>
<td>Finite- and infinite-horizon, discrete-time dynamic programming; discrete-time stochastic dynamic programming, including computational methods and some economic applications; continuous-time control theory.</td>
<td></td>
</tr>
<tr>
<td>ECON:5100</td>
<td>Microeconomics I</td>
<td>3 s.h.</td>
<td>Consumer choice theory, producer theory, choice under uncertainty, basic game theory. Offered fall semesters.</td>
<td></td>
</tr>
<tr>
<td>ECON:5110</td>
<td>Microeconomics II</td>
<td>3 s.h.</td>
<td>General equilibrium and welfare analysis, adverse selection, the principal-agent problem, social choice, mechanism design. Offered spring semesters.</td>
<td></td>
</tr>
</tbody>
</table>
ECON:5115 Fundamentals of Microeconomics  2 s.h.
Consumer theory, producer theory, partial equilibrium models, expected and nonexpected utility theory.

ECON:5125 Game Theory  2 s.h.
Noncooperative and cooperative games, games of perfect and imperfect information, matching games.

ECON:5135 General Equilibrium  2 s.h.
Walrasian equilibrium and its properties, welfare economics, general equilibrium and perfect competition, general equilibrium with externalities, general equilibrium under asymmetric information.

ECON:5145 Information Economics  2 s.h.
Markets with asymmetric information, allocation mechanisms, mechanism design.

ECON:5200 Macroeconomics I  3 s.h.
Economic growth, business cycles, money and inflation. Offered fall semesters.

ECON:5210 Macroeconomics II  3 s.h.
Dynamic macroeconomic models; stochastic macroeconomics; time consistency equilibrium business cycle theory. Offered spring semesters. Prerequisites: ECON:5200.

ECON:5215 Fundamentals of Macroeconomics I  2 s.h.
Infinite horizon endowment economies; neoclassical growth models and dynamic general equilibrium.

ECON:5225 Fundamentals of Macroeconomics II  2 s.h.
Real business cycle models; overlapping generations models.

ECON:5235 Fiscal Policy and Insurance in Macroeconomics  2 s.h.
Fiscal policies, optimal taxation, and endogenous growth; uncertainty and incomplete markets, limited commitment, private information.

ECON:5245 Monetary Economics and Search Theory  2 s.h.
Introduction to monetary and financial economics; search theory and applications to labor and money markets.

ECON:5800 Econometrics  3 s.h.
Statistical inference in single and multiple equation stochastic models, models with nonindependent or nonidentically distributed error structure, dynamic models; OLS, GLS, IV, ML estimation; asymptotic distribution theory; exact, asymptotic hypothesis tests. Prerequisites: STAT:4101.

ECON:5805 Statistics for Economics  2 s.h.
Probability theory, transformations and expectations, common families of distributions, multiple random variables, properties of a random sample, point estimation, hypothesis testing.

ECON:5810 Applied Econometrics  3 s.h.
Empirical problems; multiple linear regression, nonlinear regression, maximum likelihood, hazard functions, univariate and multivariate time series, flexible functional forms. Prerequisites: ECON:5800.

ECON:5815 Theoretical Econometrics I  2 s.h.
Statistical inference in single and multiple equation stochastic models, models with nonindependent or nonidentically distributed error structure, dynamic models; OLS, GLS, IV, ML estimation; asymptotic distribution theory; exact, asymptotic hypothesis tests.

ECON:5825 Theoretical Econometrics II  2 s.h.
Continuation of ECON:5815.

ECON:5855 Applied Econometrics I  2 s.h.
Empirical problems; multiple linear regression, nonlinear regression, maximum likelihood, hazard functions, univariate and multivariate time series, flexible functional forms.

ECON:5865 Applied Econometrics II  2 s.h.
Continuation of ECON:5855.

ECON:6310 Industrial Organization  3 s.h.
The firm, monopolistic competition, oligopoly and workable competition; industrial organization, nature of equilibrium under uncertainty. Prerequisites: ECON:5110.

ECON:6320 Labor Economics  3 s.h.
Problems and models, including intertemporal models of labor markets; uncertainty and labor market activity; retirement decisions, economic theories of fertility; economics of discrimination; job search models; economic models of unions; bargaining and strikes, public sector labor markets; determinants of income distribution; emphasis on empirical verification of theory. Prerequisites: ECON:5110 and (ECON:4800 or ECON:5800).

ECON:6350 Structural Methods in Econometrics  2 s.h.
Introduction to structural econometric approaches which can be applied in labor economics, industrial organization, and elsewhere; theoretical frameworks used in this literature; identifying assumptions needed for model estimation and validation techniques; methods used for the estimation of structural models, including Maximum Likelihood, Method of Moments and simulation-based methods.

ECON:6420 Macroeconomics III  3 s.h.
Current research in macroeconomics; development of research topics with emphasis on theoretical and empirical analysis. Prerequisites: ECON:5110 and ECON:5800.

ECON:6500 International Trade Theory  3 s.h.
The theory of international trade, including basic models of international trade; capital and labor mobility and trade; protection of international trade; the political economy of international trade; empirical applications of international trade.

ECON:6900 Contemporary Topics in Economics  3 s.h.
Topics not offered in other courses.

ECON:7000 Seminar in Economic Theory  arr.

ECON:7010 Seminar in Economic Theory II  arr.

ECON:7020 Seminar in Economics I  2 s.h.

ECON:7030 Seminar in Economics II  2 s.h.

ECON:7040 Seminar in Economics III  2 s.h.

ECON:7050 Seminar in Economics IV  2 s.h.

ECON:7870 Workshop in Microeconomics  1 s.h.

ECON:7880 Workshop in Macro and Monetary Economics  1 s.h.

ECON:7950 Readings in Economics  arr.
