Distance and Online Education

Associate Dean
• Anne W. Zalenski

Website: https://distance.uiowa.edu/

Distance and Online Education (DOE) increases access to the services and resources at the University of Iowa. In partnership with the University’s colleges and departments, DOE provides high-quality credit course work, degrees, and certificate programs to traditional and nontraditional learners. Using a variety of locations, schedules, and technologies, DOE helps provide a University of Iowa learning environment beyond the physical borders of campus. In addition, many on campus students enjoy the flexibility that online course work affords them. Courses offered through University College are taught by University of Iowa faculty and staff members.

There are eight undergraduate degrees, eleven graduate degrees, eight undergraduate certificates, six graduate certificates, and four professional certificates available either online or on location in Iowa. DOE has offered 617 online or on location courses during the academic year.

A list of all degrees and certificate programs is provided below. For additional information on a particular program, see the program finder on the DOE website.

Resource Centers

Distance and Online Education partners with the state of Iowa’s Western Iowa Regents Resource Center (WIRRC). A biological field station at Iowa Lakeside Laboratory in Milford, Iowa, provides distance opportunities to students from all three Regent institutions and is coordinated by Distance and Online Education. Additionally, degree and certificate programs are offered in Des Moines, Iowa, at the John and Mary Pappajohn Education Center. The primary goal of the centers is to increase access to high-quality undergraduate and graduate program opportunities online and on location to students in the region where they live. Other community partnerships have been created further benefiting Iowans.

Western Iowa Regents Resource Center
Director: Steve Warnstadt
Website: https://wirrc.org

Western Iowa Regents Resource Center (WIRRC) works with community colleges in their service areas to provide access to quality education to students in western Iowa. Offices are located in Council Bluffs, Sioux City, and Sheldon. Course work and degree programs are provided by the three state universities.

Iowa Lakeside Laboratory and Regents Resource Center
Executive Director: Mary P. Skopec
Website: https://iowalakesidelab.org

This center is located near Milford, Iowa, on scenic West Okoboji Lake on Little Miller’s Bay.

Iowa Lakeside Laboratory is a field station run cooperatively by the University of Iowa, Iowa State University, and the University of Northern Iowa, and administered by the University of Iowa. The laboratory offers summer courses and research opportunities for undergraduate and graduate students. Courses focus on the ecology,
taxonomy, and conservation of northern plains animals, plants, microorganisms, and ecosystems.

**Des Moines Programs**
