

# Course Numbering

## Courses at the University of Iowa

Course numbers at the University of Iowa consist of an alphabetical prefix (up to four letters) showing the college, department, or program, followed by a colon and a four-digit numerical suffix for the individual course. For example, SOC:2810 identifies the course numbered 2810 in the Department of Sociology and Criminology (SOC), titled Social Inequality.

Course suffix numbers:

- 0000–0999 designate prelower-level courses;
- 1000–2999 designate lower-level undergraduate courses;
- 3000–4999 designate courses for upper-level undergraduate and graduate students (except in the College of Engineering, where numbers 3000–5999 designate courses for undergraduate and graduate students);
- 5000–7999 designate graduate-level courses; and
- 8000–9999 designate professional-level courses.
