Biochemistry and Molecular Biology, BA

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the third semester begins: CHEM:1110 Principles of Chemistry I, CHEM:1120 Principles of Chemistry II, and two semesters of advanced math (e.g., Calculus I, Calculus II, or Biostatistics).

Before the eighth semester begins: BMB:4240 Biophysics and Advanced Biochemistry and a science elective.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Biochemistry and Molecular Biology, BA

Course Title Hours

Academic Career

Any Semester

Students in good academic standing can switch from the BA to the BS degree program after completing one semester of organic chemistry (CHEM:2210 Organic Chemistry I or CHEM:2230 Organic Chemistry I for Majors).

GE CLAS Core: Sustainability

First Year

Fall
CHEM:1110 Principles of Chemistry I 4
MATH:1850 Calculus I 4
RHET:1030 or ENGL:1200 Rhetoric or The Interpretation of Literature 3 - 4
CSI:1600 Success at Iowa 2
Elective course 1

Hours 14-15

Spring
CHEM:1120 Principles of Chemistry II 4
ENGL:1200 or RHET:1030 The Interpretation of Literature or Rhetoric 3 - 4
MATH:1860 or STAT:3510 Calculus II or Biostatistics 3 - 4
GE CLAS Core: Diversity and Inclusion 3
Elective course 1

Hours 14-16

Second Year

Fall
BIOL:1411 Foundations of Biology 4
CHEM:2230 or CHEM:2210 Organic Chemistry I for Majors or Organic Chemistry I 3
GE CLAS Core: Historical Perspectives 3
GE CLAS Core: World Languages First Level Proficiency or elective course 4 - 5
Elective course 2

Hours 16-17

Spring
BIOL:1412 Diversity of Form and Function 4
CHEM:2220 or CHEM:2240 Organic Chemistry II or Organic Chemistry II for Majors 3
CHEM:2410 or CHEM:2420 Organic Chemistry Laboratory or Organic Chemistry Laboratory for Majors 3
GE CLAS Core: World Languages Second Level Proficiency or elective course 4 - 5
Elective course 2

Hours 16-17

Third Year

Fall
BMB:3120 Biochemistry and Molecular Biology I 3
PHYS:1511 or PHYS:1611 College Physics I or Introductory Physics I 4
Major: research or science elective (consult with advisor) 3
GE CLAS Core: Values and Culture 3
GE CLAS Core: World Languages Third Level Proficiency or elective course 4 - 5

Hours 17-18

Spring
BMB:3130 Biochemistry and Molecular Biology II 3
BMB:3140 Experimental Biochemistry 2
PHYS:1512 or PHYS:1612 College Physics II or Introductory Physics II 4

Hours 17-18

Academic Career

Any Semester

Students in good academic standing can switch from the BA to the BS degree program after completing one semester of organic chemistry (CHEM:2210 Organic Chemistry I or CHEM:2230 Organic Chemistry I for Majors).

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative and Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Culture.
b Fulfills a major requirement and may fulfill a GE requirement.
c Enrollment in chemistry courses requires completion of a placement exam.
d Enrollment in math courses requires completion of a placement exam.
e Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
f GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
g Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
h Students intending to earn advanced degrees in the biological or health sciences are advised to earn at least 4 s.h. in BMB:3993 or BMB:4999.
i Students are required to complete 6 s.h. in advanced science electives approved by biochemistry advisor.
j Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.
