**Biochemistry and Molecular Biology, MS**

Students admitted to graduate study in biochemistry and molecular biology usually pursue the Doctor of Philosophy.

**Requirements**

The Master of Science program in biochemistry and molecular biology requires a minimum of 30 s.h. of graduate credit, thesis research, and a thesis. See the PhD in biochemistry and molecular biology in this section of the catalog for information about the graduate curriculum.

**Admission**

Most graduate students in biochemistry and molecular biology work toward a Doctor of Philosophy. Applicants who wish to earn a master's degree must contact the Department of Biochemistry and Molecular Biology before they apply.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.
