Programs

Undergraduate Programs of Study

The Carver College of Medicine offers a Bachelor of Science with majors in medical laboratory science, nuclear medicine technology, and radiation sciences. See Medical Laboratory Science, Nuclear Medicine Technology, and Radiation Sciences in the catalog. In addition, the college offers an undergraduate certificate; see the EMT Paramedic Program [p.] in this section of the catalog.

Graduate Programs of Study

The Carver College of Medicine offers graduate programs leading to the MS in athletic training (see the Department of Orthopedics and Rehabilitation), the MS and PhD in biochemistry (see the Department of Biochemistry and Molecular Biology), the MS and PhD in microbiology (see the Department of Microbiology and Immunology), the MS in pathology (see the Department of Pathology), the Doctor of Physical Therapy and the PhD in physical rehabilitation science (see the Department of Physical Therapy and Rehabilitation Science), and the Master in Medical Education (see the Medical Education Program). Departmental participation and teaching leads to the Graduate College's MS and PhD in biomedical science with cell and developmental biology, free radical and radiation biology, molecular physiology and biophysics, and pharmacology subprograms.

The college also offers a combined MD/PhD degree through the Medical Scientist Training Program; see Combined Programs in the Doctor of Medicine section of the catalog.

Many of the college's faculty members participate in the Graduate College's interdisciplinary programs in genetics, immunology, molecular medicine, and neuroscience.

Professional Programs of Study

The Carver College of Medicine offers the Doctor of Medicine degree, the Master of Clinical Nutrition (MCN), the Master of Physician Assistant Studies (MPA), and the Master of Clinical Anatomy (MCA).
