M.D. Training

The Department of Dermatology rotation is one of seven
selective courses offered to third- and fourth-year medical
students. Students spend two weeks in the clinic and attend
approximately 10 one-hour lectures. They see a good cross-
section of patients, including those receiving primary or
tertiary care at University of Iowa Hospitals & Clinics and Iowa
River Landing as well as a large number of patients referred
from Student Health. Additional patients also are seen at the
nearby Iowa City VA Health Care System.

Varied electives are open to fourth-year M.D. students,
including further clinical experience, dermatologic research,
and special studies.
