M.D. Training

During the core clinical clerkship year, the department’s faculty members instruct students for ten weeks in IM:8310 Internal Medicine at University of Iowa Hospitals & Clinics, Iowa River Landing, and the VA Iowa City Health Care, or in hospitals of the Des Moines Area Medical Education Consortium. Students actively participate as members of an inpatient ward team and/or specialty consult services, and in the evaluation and management of patients at outpatient internal medicine clinics in IM:8310.

During their advanced clerkship students may select a clinical experience to fit their own career goals from courses offered in general medicine, subspecialties, intensive care, and a subinternship program IM:8401 Advanced Inpatient Subinternship in Internal Medicine.
