Microbiology, BS

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

**Before the third semester begins:** BIOL:1411 Foundations of Biology, CHEM:1110 Principles of Chemistry I, CHEM:1120 Principles of Chemistry II, and an approved calculus or biostatistics course.

**Before the fifth semester begins:** BIOL:1412 Diversity of Form and Function, CHEM:2210 Organic Chemistry I, MICR:2157 General Microbiology, and MICR:2158 General Microbiology Laboratory.

**Before the seventh semester begins:** seven more courses in the major and at least 90 s.h. earned toward the degree.

**Before the eighth semester begins:** another 10–12 s.h. of coursework.

**During the eighth semester:** enrollment in all remaining coursework in the major, all remaining required GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

**Microbiology, BS**

- Pre-Medicine Track [p. 1]
- Scholar Track [p. 1]

**Pre-Medicine Track**

This sample plan is being reviewed and will be added at a later date.

**Scholar Track**

This sample plan is being reviewed and will be added at a later date.
