a. The Academic Advising Center advises Nuclear Medicine Technology interest students on prerequisite course planning. Students are advised for success, based on academic strength, not necessarily for a four year plan. Prerequisites may take more than two years to complete.

b. This course is strongly recommended to prepare for the anatomy and physiology courses.

c. This course is recommended not required.

d. Students must complete 6 s.h. by taking 3 s.h. courses from two of the following areas: Diversity and Inclusion, Historical Perspectives, International and Global Issues, Literary, Visual, and Performing Arts, or Values and Culture.

e. Please see the Radiation Sciences Programs' website and your academic advisor for detailed application instructions and deadlines.

g. Enrollment in math courses requires completion of a placement exam.

h. Enrollment in chemistry courses requires completion of a placement exam.

j. Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.
