

# Oral Pathology, Radiology, and Medicine Courses (OPRM)

## OPRM Courses

This is a list of courses with the subject code OPRM. For more information, see Oral Pathology, Radiology, and Medicine (College of Dentistry) in the Catalog.

- OPRM:5200 Stomatology Literature Review** 0-3 s.h.  
Current literature in oral and maxillofacial pathology and radiology; presentation of graduate student research; development of lectures or seminars for D.D.S. or graduate students, or continuing education for peers and practicing dentists.
- OPRM:5225 Manifestations of Oral and Paraoral Disease** 0-3 s.h.  
Clinical experience in diagnosing, managing patients.
- OPRM:5226 Oral Pathology for Graduate Students** 0-1 s.h.  
Head and neck diseases, abnormalities.
- OPRM:5227 Surgical Oral Pathology** 0-1 s.h.  
Experience in day-to-day operations of surgical oral pathology laboratory; advanced training in histopathologic diagnosis of oral and maxillofacial diseases. Corequisites: OPRM:5240, if not taken as a prerequisite.
- OPRM:5228 Introduction to Surgical Oral Pathology** 0-1 s.h.  
Day-to-day operations of surgical oral pathology laboratory; histopathologic diagnosis of oral and maxillofacial diseases.
- OPRM:5230 Research in Oral Pathology, Radiology, and Medicine** 0-3 s.h.  
Includes thesis preparation.
- OPRM:5238 Introduction to Histopathology** 0-1 s.h.  
Case studies; histopathologic diagnosis of diseases that affect oral and maxillofacial region.
- OPRM:5240 Histopathology** 0-1 s.h.  
Case studies; advanced training in histopathologic diagnosis of diseases that affect oral and maxillofacial region. Corequisites: ORDN:5202, if not taken as a prerequisite.
- OPRM:5241 Hospital Oral Pathology, Radiology, and Medicine** 0-3 s.h.  
Management of patient consultations, diagnosis, therapy at a hospital-based dental service.
- OPRM:5242 Clinical Oral and Maxillofacial Radiology** 0-3 s.h.  
Radiologic manifestations of diseases; emphasis on craniofacial complex.
- OPRM:5243 Practical Oral and Maxillofacial Radiology** 0-3 s.h.  
Clinic participation; supervision of dental and dental hygiene students, review of their cases; participation in clinical radiology conferences, laboratory exercises.
- OPRM:5244 Technical Oral and Maxillofacial Radiology** 0-3 s.h.  
Experience with technical maintenance of darkroom, clinical equipment; troubleshooting under supervision of radiology staff.
- OPRM:5245 Head and Neck Radiology** 0-3 s.h.  
Hospital-based rotation in diagnostic radiology with participation in interpretation sessions; CT, MRI, nuclear medicine, ultrasound.
- OPRM:5246 Craniofacial Radiology** 0-3 s.h.  
Hospital-based rotation in diagnostic radiology; exposure to interpretive sessions on ultrasound, CT, MRI, nuclear medicine.
- OPRM:5256 Advanced Oral Pathology** 0-1 s.h.  
Diseases involving orofacial organs; emphasis on bibliographic research, biodynamic analysis of pathologic processes, diagnostic interpretation; content adapted to student interests. Requirements: graduate standing in oral pathology.
- OPRM:8120 Fundamentals of Oral Radiology** 1 s.h.  
Methods of clinical, radiographic examination, record keeping; correlation of basic, clinical sciences.
- OPRM:8235 Oral Pathology I** 2 s.h.  
Application of biomedical science knowledge to diagnosis and management of oral and maxillofacial diseases, primarily surface epithelial diseases; classification of lesions and diseases of the oral and maxillofacial region into clinical categories, formulation of a clinical differential diagnosis, and recommendation of initial management based on clinical differential diagnosis.
- OPRM:8236 Oral Pathology II** 2 s.h.  
Application of biomedical science knowledge to diagnosis and management of oral and maxillofacial diseases, primarily hard and soft tissue diseases/neoplasms and syndromes; identification of cause, pathogenesis, historical features, signs, symptoms, laboratory abnormalities, radiographic findings (where applicable), and recommended initial management of the most common and/or serious diseases and lesions of the oral and maxillofacial region. Prerequisites: OPRM:8235.
- OPRM:8240 Basic Pharmacology** 3 s.h.  
Principles of pharmacology, pharmacologic actions of drugs, and correlation with therapeutic uses.
- OPRM:8245 Introduction to Clinical Oral Radiology** 1 s.h.  
Principles, techniques of diagnosis, radiology, clinical pathology in clinical practice.
- OPRM:8355 Systemic Disease Manifestations** 1 s.h.  
Clinical medicine for dental students; basic information for patient evaluation.
- OPRM:8360 Clinical Oral Diagnosis** 1 s.h.  
Diagnosis of orofacial diseases by clinical, laboratory, radiographic and treatment planning methods; clinical case analysis.
- OPRM:8361 Clinical Oral Radiology** arr.  
Making and processing intraoral, extraoral radiographs; principles of radiographic interpretation.
- OPRM:8362 Applied Oral Radiology** 1 s.h.  
Builds on foundational knowledge learned in OPRM:8120 and OPRM:8245; emphasis on understanding disease process on radiographs and its interpretation. Prerequisites: OPRM:8120 and OPRM:8245.

**OPRM:8365 Clinical Oral Pathology 1 s.h.**

Oral and maxillofacial diseases: integration of the clinical, historical, radiographic features; therapeutic management.

**OPRM:8368 Applied Dental Pharmacology 2 s.h.**

Patients' medications and their implications for dental treatment; clinical use of medications that dentists may prescribe; guidelines for dental prescribing.
