## Radiation Therapy Program Courses

### Radiation Sciences (RSTH)

#### RSTH Courses

This is a list of courses with the subject code RSTH. For more information, see Radiation Sciences (Carver College of Medicine) in the catalog.

**RSTH:3100 Introduction to Radiation Therapy**
- 3 s.h.
- Introduction to cancer as a disease; defining methods to treat cancer with emphasis on radiation therapy; simulation, planning, and treatment delivery of radiation therapy.
- Requirements: acceptance to radiation sciences therapy program.

**RSTH:3110 Medical Physics I**
- 1-3 s.h.
- Introduction to radiation used in clinical setting; fundamental physical units, measurements, principles, atomic structure and types of radiation; X-ray generating equipment, X-ray production, and its interaction with matter.
- Requirements: admission to free radical and radiation biology program or acceptance to radiation sciences therapy program, and maxillofacial or radiation oncology resident. Same as FRRB:3110.

**RSTH:3120 Radiation Therapy Clinical Internship I**
- 3 s.h.
- Student rotations through different radiation therapy related areas; assist, practice, and test radiation therapy principles learned in didactic setting; skill building for care and management of patients; conduction of performance assessments and completion of guideline objectives for each rotation; performance expectations become progressively higher as students gain experience and skills.
- Requirements: acceptance to radiation sciences therapy program.

**RSTH:3205 Principles of Radiation Therapy I**
- 3 s.h.
- Didactic and laboratory work in principles of radiation therapy; historic and current aspects of cancer treatment; role of radiation therapist; patient care, treatment delivery accessories, tumor localization treatment delivery protocols.
- Prerequisites: RSTH:3100. Requirements: enrollment in radiation sciences therapy program.

**RSTH:3215 Medical Physics II**
- 0-3 s.h.
- Treatment units used in external radiation therapy; beam calculations, isodose distributions, brachytherapy, quality assurance and quality management, protection and safety.
- Prerequisites: RSTH:3110. Requirements: admission to free radical and radiation biology program or acceptance to radiation sciences therapy program. Same as FRRB:3215.

**RSTH:3225 Radiation Therapy Clinical Internship II**
- 3 s.h.
- Student rotations through different radiation therapy related areas; assist, practice, and test radiation therapy principles learned in didactic setting; skill building for care and management of patients; conduction of performance assessments and completion of guideline objectives for each rotation; performance expectations become progressively higher as students gain experience and skills.
- Prerequisites: RSTH:3120. Requirements: acceptance to radiation sciences therapy program.

### RSTH:3325 Radiation Therapy Clinical Internship III
- 4 s.h.
- Student rotations through different radiation therapy related areas; assist, practice, and test radiation therapy principles learned in didactic setting; skill building for care and management of patients; conduction of performance assessments and completion of guideline objectives for each rotation; performance expectations become progressively higher as students gain experience and skills.
- Prerequisites: RSTH:3225. Requirements: acceptance to radiation sciences therapy program.

**RSTH:4105 Principles of Radiation Therapy II**
- 2 s.h.
- Evaluation and management of neoplastic disease using knowledge in arts and sciences; critical thinking and basis of ethical clinical decision-making; epidemiology, etiology, detection, diagnosis, patient condition, treatment and prognosis of neoplastic disease.
- Prerequisites: RSTH:3205. Requirements: enrollment in radiation sciences therapy program.

**RSTH:4125 Radiation Therapy Clinical Internship IV**
- 4 s.h.
- Student rotations through different radiation therapy related areas; assist, practice, and test radiation therapy principles learned in didactic setting; skill building for care and management of patients; conduction of performance assessments and completion of guideline objectives for each rotation; performance expectations become progressively higher as students gain experience and skills.
- Prerequisites: RSTH:3325. Requirements: acceptance to radiation sciences therapy program.

**RSTH:4225 Radiation Therapy Clinical Internship V**
- 5 s.h.
- Student rotations through different radiation therapy related areas; assist, practice, and test radiation therapy principles learned in didactic setting; skill building for care and management of patients; conduction of performance assessments and completion of guideline objectives for each rotation; performance expectations become progressively higher as students gain experience and skills.
- Prerequisites: RSTH:4125. Requirements: acceptance to radiation sciences therapy program.

**RSTH:4230 Radiation Therapy Capstone**
- 3 s.h.
- Professional development; review of concepts.
- Requirements: acceptance to radiation sciences therapy program.
