Urban and Regional Planning Courses (Planning and Public Affairs) (URP)

This is a list of all urban and regional planning courses. For more information, see Planning and Public Affairs.

**URP:2013 Introduction to Sustainability** arr. Introduction to sustainability knowledge, skills, and habits as a means to shape one's vision of a sustainable citizen; emphasis on basic skills of literacy, applied math, and finding information; traditional sustainability knowledge areas related to society, economy, and environment; intersecting themes (e.g., informed consumerism, eco-economics, and livable environments). Same as BUS:2013, GEOG:2013, SUST:2013.

**URP:3001 Planning Livable Cities** 3 s.h. Development of livable cities in the United States; economic, physical, environmental, and political forces that shape their growth; impact of planning, how it shapes the future of cities. Same as GEOG:3920.

**URP:3134 Regional and Urban Economics** 3 s.h. Theory of location and regional development; central place theory; why cities exist and trade with one another; models of land use patterns, rents; empirical tests of models; policy applications. Prerequisites: ECON:1100. Same as ECON:3640.

**URP:3135 Environmental and Natural Resource Economics** 3 s.h. Environmental and resource use problems; efficient mechanisms and other policies for environmental protection, management of common property resources. Prerequisites: ECON:1100 and ECON:1200. Same as ECON:3625.

**URP:3217 Negotiation and Conflict Resolution** 3 s.h. Strategies of successful negotiation across a wide range of conflict situations; keys to success in peacefully resolving conflicts; personal, professional, legal, and political negotiations; apologizing; mediation as alternative to litigation; analysis of conflict characteristics to determine optimal negotiation strategies; development of negotiation interpersonal skills; practice negotiating under real world scenarios. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060. Same as PBAF:3217, RHET:3009.

**URP:3350 Transportation Economics** 3 s.h. Overview of transportation markets—intercity, rural, urban; transportation modes—rail, highway, air, water, pipeline, transit; issues in finance, policy, planning, management, physical distribution, and environmental, economic, and safety regulation. Recommendations: ECON:1100 and ECON:1200. Same as ECON:3750, GEOG:3940.

**URP:4170 Megacities Seminar** 1-3 s.h. Global historical, political, economic, urban, and cultural aspects of megacity development; planning methods to address contemporary and emerging issues; critical analysis of peer-reviewed literature and computational simulations; topics include urban sprawl, poverty and inequality, economies, food scarcity, population growth, governance models, environmental and health concerns, sustainability.

**URP:4225 Applied GIS for Planning and Policy Making** 3 s.h. Analysis of Census of Population and Housing data using GIS software; data and analytical needs of urban planners; coverage of GIS topics to plan functions of GIS and spatial analysis, varied GIS software in a planning organization; structure of the census.

**URP:4243 The Land Development Process** 3 s.h. How land is developed; analysis of site suitability, preparation of subdivision plan, site plan review, development approval process, infrastructure and site preparation, negotiating local development politics; field trips.

**URP:4245 Growth Management** 3 s.h. Causes and consequences of urban sprawl, shortfalls in conventional land use planning; local and state growth management policies, techniques of policy implementation, positive and negative impacts of such policies; Smart Growth; emerging challenges.

**URP:4253 Designing Sustainable and Healthy Cities** 1-3 s.h. Principles and practical elements of urban design for sustainable and healthy cities; general urban design background for policy makers and planners; impacts of urban design for environmental sustainability, community health, and well-being; physical, mental, social, and environmental health as affected by urban form, air and water quality, green spaces, and climate change impacts.

**URP:4256 Environmental Policy** 3 s.h. Environmental policy formation and politics; comparative international perspective on the United States’ experience.

**URP:4260 Transportation Policy and Planning** 3 s.h. Institutional setting for transportation planning, evolution of domestic transportation policy, international influences, transportation modes and markets, current sources of transportation planning information, emerging policy issues.

**URP:4262 Transportation Demand Analysis** 3 s.h. City planning procedures and traffic engineering techniques applied to transportation problems; trip generation, distribution, assignment, mode choice models; travel surveys, data collection techniques; arterial flow, intersection performance, parking; transit system analysis. Same as CEE:4176.

**URP:4265 Planning Sustainable Transportation** 3 s.h. Theories and methods of exerting public control over passenger and freight transportation; social and environmental regulation; effects of changing finance, regulation, and pricing policies including privatization, tolls, and impact fees.

**URP:4266 Transportation and Land Use Planning** 3 s.h. Policies and interactions between transportation and land use; location theories and practices; transportation infrastructure, land use, and travel behavior modeling; current policies that influence travel behavior and urban form.

**URP:4271 Housing Policy** 3 s.h. Recent housing policy initiatives at federal, state, and local levels.
URP:4273 Community Development Through Creative Placemaking 3 s.h.
Examination of practices, ideas, and techniques for community development in small to large communities; particular focus on creative placemaking, in which planners and the public strategically shape the physical and social character of a neighborhood, town, city, or region around arts and cultural activities; application of this approach to a specific community project; for students in the arts, humanities, social sciences, and planning and public affairs.

URP:4280 Planning for Disaster Mitigation and Recovery 2-3 s.h.
Types of disasters that communities face; what role planners play, what role should they play; importance of hazard mitigation and planning for post-disaster recovery; where planners’ unique skills play the most significant roles in aiding a community to redesign a safer future.

URP:4295 Economic Development Policy 3 s.h.
Analysis of policies and programs at national, regional, state, and local levels that address problems of economic growth, development, decline.

URP:4297 Financing Economic Development for Poverty Alleviation 3 s.h.
Business financial statements and evaluation of loan proposals; small business finance including financing working capital, fixed assets, and real estate; economic development agencies and institutions; case studies of economic development financing.

URP:4750 Environmental Impact Analysis 3 s.h.
In-depth exposure to the history and evolution of the U.S. Environmental Impact Assessment (EIA) process; discussion of major court cases; ecological, economic, and political aspects of current environmental controversies; exposure to real-world scenarios that are crucial to understanding the EIA process in action; field trips to six or seven environmental control facilities in Iowa City and neighboring areas. Prerequisites: GEOG:1070. Same as GEOG:4750.

URP:4752 Eight Generation Planning: Envisioning Regenerative Cities 3 s.h.
Star Trek tells us that Captain Kirk will be born in Iowa in 2228, what should cities look like in that year? Students envision and design great regenerative cities in the age of Anthropocene—the period we are in which features substantial human influence on climate and the environment; exploration of contemporary philosophies and urban strategies for sustainability, resilience, post-scarcity abundance, human well-being, social inclusiveness, and justice in an era of rapid changes in society, technology, climate, and environment.

URP:4760 Sustainable Urban Development: The Hong Kong Experience 3 s.h.
Today about 52 percent of the world’s population lives in urban areas; by 2050 almost 70 percent will be living in cities and towns; how the shape, size, and form of urban areas and how people live in them have significant impact on the environment; students explore theories and practices pertaining to sustainable urban development and learn about urban environmental issues around the world and significant socioeconomic problems arising from current patterns of urban development that are, on the whole, not sustainable; introduction to many innovative approaches for making cities more sustainable.

URP:5678 Application Simulation to Transportation 3 s.h.
Transportation system management and traffic engineering; application of real-time simulation and visualization. Prerequisites: CEE:3763 or CEE:4763. Same as CEE:5678.

URP:5800 Environmental Economics and Policy 3 s.h.
Reasons why markets fail in environmental realm (e.g., externalities, common pool resources, club goods, public goods); ecosystem services and techniques used for their valuation; revealed and stated preferences; cost-benefit analysis and role in policy-making process; tools to address environmental market failures, particularly command and control, taxes and subsidies, and mitigation markets; focus on air pollution, climate change, and water-related policies. Same as GEOG:5800, PBAF:5800.

URP:6200 Analytic Methods I 1-3 s.h.
Data science, statistics, quantitative reasoning, study design and analysis for planning and policy; applied quantitative and qualitative research, surveys, public participation; data sharing and data management for reproducibility and accessibility. Same as PBAF:6200.

URP:6201 Analytic Methods II 3 s.h.
Integration of methods with the planning process; application of multiple regression, population estimation and projection, survey methods, time series analysis, industrial growth and change; presentation of results to decision makers and the public. Prerequisites: URP:6200. Same as PBAF:6201.

URP:6202 Land Use Planning: Law and Practice 4 s.h.
Legal, social foundations of land use planning; comprehensive planning, zoning and subdivision review; legal aspects of land use, environmental planning; ordinance drafting; staff report writing; citizen participation.

URP:6203 The Making of Cities: History and Theories of Planning 3 s.h.
Histories and dynamics of urban change in Western cities as a reflection of social, cultural, economic, and environmental forces; alternative city planning philosophies, perspectives, and ethics relevant to planners and policy makers; special attention to how urban planning intersects with racism and social justice, as well as climate change and sustainability.

URP:6205 Economics for Policy Analysis 1.3 s.h.
Principles of economics, concepts and techniques of microeconomic analysis, market failures, role of government in the economy, tax policy, income inequality, and program evaluation. Same as PBAF:6205.

URP:6208 Program Seminar 1 s.h.
Planning, administrative, and policy processes; roles of planners, public policy analysts, and administrators; professional ethics and standards. Same as PBAF:6208.

URP:6209 Field Problems in Planning I 3 s.h.
Experience working on a two-semester project involving a current planning issue, usually for a client. Requirements: urban and regional planning graduate standing.

URP:6210 Field Problems in Planning II 3 s.h.
Continuation of URP:6209. Prerequisites: URP:6209. Requirements: urban and regional planning graduate standing.

URP:6211 Community Outreach Practicum 1-3 s.h.
Application of planning skills to community work by nonprofit organizations in local area; urban planners contributing to their communities; community outreach.
URP:6225 Applied GIS for Planning and Policy Making  1-3 s.h.
Analysis of U.S. Census data using GIS software; data and
analytical needs for urban planning and public policy making;
coverage of GIS topics including spatial analysis of social
science and environmental problems, site selection; graphical
display of results, including online maps; development of
models in GIS. Same as PBAF:6225.

URP:6227 Spatial Analysis in Planning and Policy Making  3 s.h.
Databases, GIS, planning support systems; spatial model
building and use of spatial statistics; applications to
substantive problems in transportation, environment, housing,
economic development. Recommendations: completion of an
introductory GIS course.

URP:6229 Practicum  1-5 s.h.
Full-time internship of at least five months with a planning-
related organization. Requirements: urban and regional
planning graduate standing.

URP:6233 Public Finance and Budgeting  3 s.h.
Local budgeting process and revenue instruments available
for local governments to finance their infrastructure; local
budgeting process, mechanics of property tax and other
revenue sources, connection between taxation and land
use, economic development, growth management, and
transportation; issues regarding financing K-12 public schools.
Prerequisites: URP:6205 or PBAF:6205. Same as PBAF:6233.

URP:6240 Public Management  3 s.h.
Public management in a democratic society; balancing
of administrative and democratic values and interests;
examination of institutional, political, organizational, and
ethical context of public management and policy making;
students acquire important management, leadership, and
decision making skills, as well as reflect on their values and
behaviors with regard to administration and public service,
particularly in a diverse and changing society; service in
public sector contrasted with service in private and nonprofit
sectors. Same as PBAF:6240.

URP:6242 Planning and City Administration  1 s.h.
Relationship of planners and other local government
personnel; how planning fits into city management; city
management view of local political process, provision of
city services, finance and budgeting, human resources,
intergovernmental relations, how meetings are run, dealing
with the public.

URP:6243 The Land Development Process  3 s.h.
How land is developed; analysis of site suitability, preparation
of subdivision plan, site plan review, development approval
process, infrastructure and site preparation, negotiating local
development politics; field trips. Prerequisites: URP:6202.

URP:6245 Growth Management  3 s.h.
Causes and consequences of urban sprawl, shortfalls in
conventional land use planning; local and state growth
management policies, techniques of policy implementation,
positive and negative impacts of such policies; Smart Growth;
emerging challenges. Same as PBAF:6245.

URP:6249 Sustainability Seminar  1 s.h.
Focus of increasing interest for planning students and
practicing planners; involves environmental effects, economy,
social justice; discussion and investigation of sustainability
practice applied to local and regional efforts of public and
private entities; greater awareness and understanding of the
effectiveness and resource requirements of local activities
addressing sustainability; presentations by the instructor,
local tours, guest lectures.

URP:6253 Designing Sustainable and Healthy Cities  1-3 s.h.
Principles and practical elements of urban design for
sustainable and healthy cities; general urban design
background for policy makers and planners; impacts of
urban design for environmental sustainability and for
community health and well-being; physical, mental, social,
and environmental health as they are affected by urban
form, air and water quality, green spaces and climate change
impacts. Same as PBAF:6253.

URP:6256 Environmental Policy  3 s.h.
Environmental policy formation and politics; comparative
international perspective on the United States' experience.
Same as PBAF:6256.

URP:6257 Environmental Management  3 s.h.
Environmental best management practices for sustainable
management of natural resources; open space and habitat
protection, prairie and wetland restoration, water supplies
management, natural hazard mitigation, farmland protection.
Same as PBAF:6257.

URP:6258 Systems and Scenario Thinking  3 s.h.
Quantitative and qualitative methods for complex dynamic
systems; participatory modeling; systems thinking, integrated
assessment, and scenario planning; decision making, policy
development, and evaluation; nonlinear dynamics of cities,
materials, energy, and human-environment relationships;
numerical modeling; historical and contemporary roles of
human activities in the Earth system. Same as PBAF:6258.

URP:6260 Transportation Policy and Planning  3 s.h.
Institutional setting for transportation planning, evolution
of domestic transportation policy, international influences,
transportation modes and markets, current sources of
transportation planning information, emerging policy issues.
Same as PBAF:6260.

URP:6265 Planning Sustainable Transportation  3 s.h.
Theories and methods of exerting public control over
passenger and freight transportation; social and
environmental regulation; effects of changing finance,
regulation, and pricing policies, including privatization, tolls,
impact fees. Same as GEOG:6264, PBAF:6265.

URP:6266 Transportation and Land Use Planning  3 s.h.
Policies and interactions between transportation and
land use; location theories and practices; transportation
infrastructure, land use, travel behavior modeling; current
policies that influence travel behavior and urban form. Same
as PBAF:6266.

URP:6268 Freight Transportation Planning  3-4 s.h.
Freight transportation planning in the United States; surface
modes, primarily trucking and rail, as well as trade-offs in bulk
movements by inland waterways and pipelines; comparison
with recent developments in policy, planning, and practice for
surface transportation in other developed economies (e.g.,
Europe).
URP:6271 Housing Policy 3 s.h.
Recent housing policy initiatives at federal, state, and local levels. Same as PBAF:6271.

URP:6273 Community Development Through Creative Placemaking 3 s.h.
Examination of practices, ideas, and techniques for community development in small to large communities; particular focus on creative placemaking, in which planners and the public strategically shape the physical and social character of a neighborhood, town, city, or region around arts and cultural activities; students and faculty apply this approach to a specific community project; for students in the arts, humanities, social sciences, and planning and public affairs. Same as PBAF:6273.

URP:6277 Affordable Housing Finance 3 s.h.
Financing development or rehabilitation of affordable housing; low-income housing tax credits, the housing finance system and current regulatory issues, mortgage discrimination, improving financing for rental housing.

URP:6280 Planning for Disaster Mitigation and Recovery 2-3 s.h.
Types of disasters that communities face; what role planners play, what role should they play; importance of hazard mitigation and planning for post-disaster recovery; where planners' unique skills play the most significant roles in aiding a community to redesign a safer future. Same as PBAF:6280.

URP:6282 Grant Writing 1-2 s.h.
Same as PBAF:6282, SSW:6282.

URP:6290 Economic Impact Assessment 3 s.h.
Economic impact and growth analysis, including economic base, income expenditure, input-output analysis; use of economic impact analysis in a cost-benefit context; industrial location and mobility theory with statistics applications. Prerequisites: URP:6205.

URP:6295 Economic Development Policy 3 s.h.
Analysis of policies and programs at national, regional, state, and local levels that address problems of economic growth, development, decline. Same as PBAF:6295.

URP:6297 Financing Economic Development for Poverty Alleviation 3 s.h.
Business financial statements and evaluation of loan proposals; small business finance including financing working capital, fixed assets, and real estate; economic development agencies and institutions; and case studies of economic development financing. Same as PBAF:6297.

URP:6305 Readings arr.

URP:6315 Independent Study in Planning 1-6 s.h.
Research and analysis of a special planning problem; opportunity to apply knowledge in area of specialization.

URP:6320 Introduction to Graphic Communications 2 s.h.
Visual communication techniques through use of print and digital media; how to graphically convey concepts and information to a variety of audiences; basic design principles to build a foundation in graphic communication; relationships between various software packages; advantages and shortcomings of various digital tools; development of professional graphic media that is beautiful and effective.

URP:6330 Developing Graphic Content 1 s.h.
Skills necessary to develop graphic content utilized by professionals in the field of urban and regional planning; students learn to use programs such as SketchUp, LayOut, Google Earth, and Lumion; produce maps, diagrams, experiential perspectives, renderings, and other visuals; and convey a variety of ideas pertaining to the urban environment.

URP:6335 Internship 2 s.h.
Work in a planning or related agency or nonprofit organization.

URP:6340 Public Policy Analysis 3 s.h.
Rationales and goals of public policy; major steps, key methods, and tools in policy analysis; professional delivery of policy recommendations. Same as PBAF:6340.

URP:6400 Sustainable Development: The Kerala Experience 3 s.h.
Exploration of student interests in social entrepreneurship, global health, microfinance, cultural production, environmental sustainability, or other development issues in India; varied disciplinary perspectives (i.e., public health, business, social work, geography, art); student work with Indian NGOs employing a diverse variety of techniques to address social problems such as child labor, health care for the poor, illiteracy, and disability services. Winter session. Same as PBAF:6400.
