Oral and Maxillofacial Radiology, Professional Certificate

Requirements

The department offers the professional Certificate in Oral and Maxillofacial Radiology. The educational requirements of the certificate program meet the requirements for the preparation of dental specialists in oral and maxillofacial radiology set by the Commission on Dental Accreditation and the American Board of Oral and Maxillofacial Radiology. Students must maintain a cumulative grade-point average of at least 3.00 to earn the certificate.

Oral and maxillofacial radiology involves the study of structure, function, and diseases of the oral and maxillofacial region. Study methods include examination of related histories, evaluation of clinical signs and symptoms, and use of radiologic procedures for interpretation and to establish a diagnosis and plan for therapeutic management.

The department's programs are diverse and flexible, allowing students to obtain advanced clinical, didactic, and researchrelated education while earning a professional certificate. Students working toward the certificate may pursue a Master of Science in oral science in conjunction with the certificate; see "Graduate Study."

Graduate Study

Students earning the department's certificate may pursue a Master of Science in oral science with a subprogram in oral and maxillofacial radiology while they work toward the certificate. Each program combines the minimum requirements of the MS and the certificate; the completion time usually is 36 to 48 months.

All students in the combined programs pursue a comprehensive study of basic biological and health sciences in preparation for teaching and research. They must complete the following courses, including the core courses and the basic science and departmental courses listed for their MS track. They must also prepare and submit a thesis based on the results of research conducted during their course of study. See the MS in oral science in the catalog for additional information about requirements and admission.

Core Courses

Course #	Title	Hours
OPRM:5200	Stomatology Literature Review	0-1
OPRM:5226	Oral Pathology for Graduate Students	0-1
OPRM:5242	Clinical Oral and Maxillofacial Radiology	0-2
ORSC:5200	Seminars in Dental Research	1
ORSC:5210	Dental Sciences Research Methodology	2

ORSC:5212	Statistical Methods for Dental Research	3
ORSC:5215	Research Design in Dentistry	2
ORSC:5600	Research in Oral Science	9
OTO:8199	Foundations of Otolaryngology	2

Track Courses

Course #	Title	Hours
OPRM:5243	Practical Oral and Maxillofacial Radiology	0-2
OPRM:5244	Technical Oral and Maxillofacial Radiology	0-2
OPRM:5245	Head and Neck Radiology	0-2
FRRB:3110/ RSTH:3110	Medical Physics I	2
FRRB:3130/ RSP:3130	Introduction to Radiation Safety and Radiobiology	1
PATH:8133	Introduction to Human Pathology for Graduate Students	3-4
