

# Psychological and Quantitative Foundations, MA

## Combined Programs

### Undergraduate Degree/MA

Undergraduate students in this combined program begin work toward the MA in psychological and quantitative foundations with a learning sciences and educational psychology subprogram while completing work toward the bachelor's degree.

This Undergraduate to Graduate (U2G) program is open to students in any undergraduate major at the University of Iowa. Students can earn the bachelor's and master's degrees in less time than it would take to complete them separately. Students who are admitted to the program may count 12 s.h. of credit toward both the bachelor's and master's degree requirements. This program is offered by the Graduate College and the College of Education.

Additional information can be found at Undergraduate to Graduate MA Learning Sciences and Educational Psychology.
