## Computer Science and Engineering, BSE

## Academic Plans

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Typically this course is offered in fall and spring semesters.
Check MyUI for course availability since offerings are subject to change.
b Enrollment in math courses requires completion of a placement exam.
c Typically this course is offered in fall, spring, and summer sessions. Check MyUI for course availability since offerings are subject to change.
d Enrollment in chemistry courses requires completion of a placement exam.
e Typically this course is offered in fall semesters only. Check MyUI for course availability since offerings are subject to change.
f See General Catalog for list of approved course subjects.
g Students select a course from one of two GE CLAS Core areas: Diversity and Inclusion or Values and Culture.
h See General Catalog for list of approved courses. Students who intend to enroll in a Be Creative course with prerequisites must request a waiver by completing the Request Prerequisite Special Permission form on MyUI.
i Students choose two focus area electives from computer science courses not already required for the major. At least one course must be considered advanced for the elective; see General Catalog for criteria. See the Department of Electrical and Computer Engineering website or consult an advisor for more information.
j Typically this course is offered in spring semesters only. Check MyUl for course availability since offerings are subject to change.
k Students select additional courses to reach a minimum of 17 s.h. in focus area electives. See General Catalog, the Department of Electrical and Computer Engineering website, or consult an advisor for more information.
I Students choose two focus area electives from courses with prefix ECE not already required for the major. One must be a course numbered 3400 or above. At least one of the two must be numbered between 5001-5995. Students must consult an academic advisor and gain approval from the undergraduate curriculum chair to count ECE:5998 toward this requirement. See General Catalog, the Department of Electrical and Computer Engineering website, or consult an advisor for more information.
mSee General Catalog for list of approved courses. Specific recommendations vary based on focus area.
n Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.
