Applications for the M.S. in engineering and information technology are not being accepted at this time.

The Master of Science program in engineering and information technology requires 30 s.h. of graduate credit. Students must maintain a cumulative g.p.a. of at least 3.00. Students are allowed up to 6 s.h. of approved transfer credit.

Students work with an academic advisor to formulate a plan of study. The degree requires 12 s.h. of core courses and 18 s.h. in a subprogram—information technology or mechanical engineering.
