## Biomedical Engineering, MS

## **Academic Plans**

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

## **Biomedical Engineering, MS**

| Course       | Title                        | Hours       |
|--------------|------------------------------|-------------|

a Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

- b Graduate College program GPA is comprised of all courses that are approved degree requirements. If a student takes more than the minimum required number of semester hours to complete the degree, but all courses taken are eligible to count toward the degree, those courses will be included in the Graduate College program GPA.
- c All students must complete this course during first year fall semester; does not count toward the total hours required for the degree.
- d Course substitution or waiver allowed upon approval.
- e Or equivalent graduate level mathematics course; advisor approval required prior to registration.
- f 18 s.h. must be graduate coursework at the 5000 level or above from the College of Engineering or courses from the approved elective list; work with faculty advisor to determine appropriate graduate coursework and sequence.
- g Completion of all degree requirements.
