a Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

b Graduate College program GPA is comprised of all courses that are approved degree requirements. If a student takes more than the minimum required number of semester hours to complete the degree, but all courses taken are eligible to count toward the degree, those courses will be included in the Graduate College program GPA.

c If needed, adjust the number of semester hours for GENE:7301 so total enrollment equals 15 s.h.

d Counts toward the 5 s.h. seminar degree requirement. e Choose from: BIOL:3172, BIOL:3713, BIOL:4333, GENE:7191, or take an equivalent course with advisor approval.

f Take 8 s.h. from coursework in molecular and microbial genetics, cell and development genetics, human genetics, or computational genetics. Work with faculty advisor to select appropriate courses from approved list.

g Program seminar followed by the dissertation defense.
