

Genetics, PhD

Financial Support

Financial support comes from training grants, research assistantships, teaching assistantships, scholarships, individual research grants, or other departmental or college funds. All students are required to teach as part of their development as future scientists and faculty members.

All students admitted to the Interdisciplinary Graduate Program in Genetics receive a competitive stipend and financial package. Additional information can be found on the Funding tab on the Interdisciplinary Graduate Program in Genetics website and Cost and Funding on the Graduate Admissions website.
