Combined Programs

Various combined programs have been developed whereby students work simultaneously toward two degrees. There are three types of combinations: undergraduate and graduate degree combinations (U2G programs), combinations between graduate programs, and graduate and professional degree combinations. Consult the appropriate catalog sections for more information. Established combined graduate programs include, but may not be limited to, the following.

- Undergraduate to Graduate Degree Programs (U2G), Any Bachelor's Degree [p. 1]
- Undergraduate to Graduate Degree Programs (U2G), Specific Bachelor's Degree [p. 3]
- Non-UI Undergraduate to Graduate Degree Programs (U2G) [p. 4]
- Combined Graduate Degree Programs [p. 4]
- Combined Graduate and Professional Degree Programs [p. 5]

Undergraduate to Graduate Degree Programs (U2G), Any Bachelor's Degree

The following graduate degrees offer U2G programs, which are open to any University of Iowa bachelor's degree or major.

MA in Library and Information Science

The combined program enables undergraduate students to begin work toward the MA in library and information science while completing the bachelor’s degree. Students admitted to the program may count 12 s.h. of credit toward both the bachelor’s degree and MA degree requirements. Offered by the Graduate College; see the MA in library and information science in the catalog.

Master of Arts in Teaching (Mathematics Education Subprogram)

The combined program enables undergraduate students to begin work toward the Master of Arts in Teaching (MAT) with a mathematics education subprogram while completing the bachelor's degree. Students admitted to the program may count 18 s.h. of credit toward both the bachelor’s degree and MAT degree requirements. Offered by the Graduate College and the College of Education; see the Master of Arts in Teaching, MAT (mathematics education subprogram) in the catalog.

Master of Arts in Teaching (Science Education Subprogram)

The combined program enables undergraduate students to begin work toward the Master of Arts in Teaching (MAT) with a science education subprogram while completing the bachelor's degree. Students admitted to the program may count 19 s.h. of credit toward both the bachelor's degree and MAT degree requirements. Offered by the Graduate College and the College of Education; see the Master of Arts in Teaching, MAT (science education subprogram) in the catalog.

Master of Computer Science (MCS)

The combined program enables undergraduate students to begin work toward the MCS while completing the bachelor’s degree. Students admitted to the program may count 12 s.h. of coursework toward both the bachelor's degree and MCS degree requirements. Offered by the Graduate College and the College of Liberal Arts and Sciences; see Master of Computer Science, MCS in the catalog.

Master of Public Affairs (MPAff)

The combined program enables undergraduate students to begin work toward the MPAff while completing the bachelor’s degree. Students admitted to the program may count 16 s.h. of credit toward both the bachelor’s degree and MPAff degree requirements. Offered by the Graduate College; see the Master of Public Affairs, MPAff in the catalog.

Master of Public Health (Biostatistics, Community and Behavioral Health, Occupational and Environmental Health, Policy Subprograms)

The combined program enables undergraduate students to begin work toward the Master of Public Health (MPH) while completing the bachelor's degree. Students admitted to the MPH (biostatistics, community and behavioral health, occupational and environmental health, and policy subprograms) may count 15 s.h. of credit toward both the bachelor’s degree and the MPH degree requirements. Offered by the Graduate College and the College of Public Health; see the Master of Public Health, MPH in the catalog.

Master of Public Health (Epidemiology Subprogram)

The combined program enables undergraduate students to begin work toward the Master of Public Health (MPH) while completing the bachelor's degree. Students admitted to the MPH (epidemiology subprogram) may count 17 s.h. of credit toward both the bachelor's degree and MPH degree requirements. Offered by the Graduate College and the College of Public Health; see the Master of Public Health, MPH (epidemiology subprogram) in the catalog.

MS in Biomedical Engineering

The combined program enables undergraduate students to begin work toward the MS in biomedical engineering while completing the bachelor's degree. Students admitted to the program may count 12 s.h. of credit toward both the bachelor's degree and MS degree requirements. Offered by the Graduate College and the College of Engineering; see
the Roy J. Carver Department of Biomedical Engineering in the

catalog.

**MS in Biostatistics**
The combined program enables undergraduate students to begin work toward the MS in biostatistics while completing the bachelor’s degree. Students admitted to the program may count 15 s.h. of credit toward both the bachelor’s degree and MS degree requirements. Offered by the Graduate College and the College of Public Health; see MS in biostatistics in the catalog.

**MS in Business Analytics (Career Subprogram)**
The combined program enables undergraduate students to begin work toward the MS in business analytics with a career subprogram while completing the undergraduate degree. Students admitted to the program may count 14 s.h. of credit toward both the bachelor’s degree and MS degree requirements. Offered by the Graduate College and the Tippie College of Business; see the MS in business analytics (career) in the catalog.

**MS in Civil and Environmental Engineering**
The combined program enables undergraduate students to begin work toward the MS in civil and environmental engineering while completing the bachelor’s degree. Students admitted to the program may count 9 s.h. of coursework toward both the bachelor’s degree and MS degree requirements. They also may count an additional 3 s.h. toward the MS degree requirements before they have been awarded the bachelor’s degree. Offered by the Graduate College and the College of Engineering; see the MS in civil and environmental engineering in the catalog.

**MS in Data Science**
The combined program enables undergraduate students to begin work toward the MS in data science while completing the bachelor’s degree. Students admitted to the program may count 12 s.h. of credit toward both the bachelor’s degree and MS degree requirements. Offered by the Graduate College and the College of Liberal Arts and Sciences; see the MS in data science in the catalog.

**MS in Electrical and Computer Engineering**
The combined program enables undergraduate students to begin work toward the MS in electrical and computer engineering while completing the bachelor’s degree. Students admitted to the program may count 9 s.h. toward both the bachelor’s degree and MS degree requirements. They also may count an additional 3 s.h. toward the MS degree requirements before they have been awarded the bachelor’s degree. Offered by the Graduate College and the College of Engineering; see Electrical and Computer Engineering in the catalog.

**MS in Epidemiology**
The combined program enables undergraduate students to begin work toward the MS in epidemiology while completing the bachelor’s degree. Students admitted to the program may count 15 s.h. of credit toward both the bachelor’s degree and MS degree requirements. Offered by the Graduate College and the College of Public Health; see the MS in epidemiology in the catalog.

**MS in Finance**
The combined program enables undergraduate students to begin work toward the MS in finance while completing the undergraduate degree. Students admitted to the program may count 16 s.h. of credit toward both the bachelor’s degree and MS degree requirements. Offered by the Graduate College and the Tippie College of Business; see the MS in finance in the catalog.

**MS in Health and Human Physiology (Child Life Subprogram)**
The combined program enables undergraduate students to begin work toward the MS in health and human physiology with a child life subprogram while completing the bachelor’s degree. Students admitted to the program may count 12 s.h. of credit toward both the bachelor’s degree and MS degree requirements. Offered by the Graduate College and the College of Liberal Arts and Sciences; see Health and Human Physiology in the catalog.

**MS in Industrial Engineering**
The combined program enables undergraduate students to begin work toward the MS in industrial engineering while completing the bachelor’s degree. Students admitted to the program may count 9 s.h. toward both the bachelor’s degree and MS degree requirements. They also may count an additional 3 s.h. toward the MS degree requirements before they have been awarded the bachelor’s degree. Offered by the Graduate College and the College of Engineering; see Industrial and Systems Engineering in the catalog.

**MS in Mechanical Engineering**
The combined program enables undergraduate students to begin work toward the MS in mechanical engineering while completing the bachelor’s degree. Students admitted to the program may count 12 s.h. toward both the bachelor’s degree and MS degree requirements. Offered by the Graduate College and the College of Engineering; see Mechanical Engineering in the catalog.

**MS in Occupational and Environmental Health (Industrial Hygiene Subprogram)**
The combined program enables undergraduate students to begin work toward the MS in occupational and environmental health while completing the bachelor’s degree. Students admitted to the MS program may count 15 s.h. of credit toward both the bachelor’s degree and MS degree requirements. Offered by the Graduate College and the College of Public Health; see the MS in occupational and environmental health (industrial hygiene subprogram) in the catalog.

**MS in Statistics**
The combined program enables undergraduate students to begin work toward the MS in statistics while completing the bachelor’s degree. Students admitted to the program may count 12 s.h. of credit toward both the bachelor’s degree and MS degree requirements. Offered by the Graduate College and the College of Liberal Arts and Sciences; see Statistics and Actuarial Science in the catalog.
MS in Sustainable Development
The combined program enables undergraduate students to begin work toward the MS in sustainable development while completing the bachelor's degree. Students admitted to the program may count 12 s.h. of credit toward both the bachelor's degree and MS degree requirements. Offered by the Graduate College and the Carver College of Medicine; see the Department of Geographical and Sustainability Sciences in the catalog.

MS in Urban and Regional Planning
The combined program enables undergraduate students to begin work toward the MS in urban and regional planning while completing the bachelor's degree. Students admitted to the program may count 18 s.h. of credit toward both the bachelor's degree and MS degree requirements. Offered by the Graduate College; see the MS in urban and regional planning in the catalog.

PhD in Biochemistry
The combined program enables undergraduate students to begin work toward the PhD in biochemistry while completing the bachelor's degree. Students admitted to the program may count 12 s.h. of credit toward both the bachelor's degree and PhD degree requirements. Offered by the Graduate College and the Carver College of Medicine; see the Department of Biochemistry and Molecular Biology in the catalog.

Undergraduate to Graduate Degree Programs (U2G), Specific Bachelor's Degrees
The following graduate degrees offer U2G programs that are paired with a specific University of Iowa bachelor's degree or major.

BA in Elementary Education (Special Education Subprogram)/MA in Teaching and Learning (Special Education Subprogram)
The combined BA/MA program with a special education subprogram enables students to begin work toward the MA in teaching and learning while completing the bachelor's degree. Students admitted to the program may count 12 s.h. of credit toward both the BA and MA degree requirements. Offered by the Graduate College and the College of Education; see the MA in teaching and learning (special education subprogram) in the catalog.

BA in Geography (Geographic Information Science Track) or BS in Geography/MS in Informatics (Geoinformatics Subprogram)
The combined BA in geography with a geographic information science track or BS in geography/MS in informatics with a geoinformatics subprogram enables undergraduate students majoring in geography to begin work toward the MS while completing the bachelor's degree. Students admitted to the program may count 12 s.h. toward both the BA or BS and MS degree requirements. Offered by the Graduate College and the College of Liberal Arts and Sciences; see Geographical and Sustainability Sciences and the MS in informatics (geoinformatics subprogram) in the catalog.

BA in Linguistics/MA in Linguistics (TESL Subprogram)
The combined BA/MA program in linguistics with a TESL subprogram enables students majoring in linguistics to begin work toward the MA while completing the bachelor's degree. Students admitted to the program may count 12 s.h. of advanced coursework toward both the BA and MA degree requirements and may take selected graduate-level courses before they have been awarded the BA degree. They also may gain experience teaching English as a second language (ESL) at the college level early in their graduate careers. Offered by the Graduate College and the College of Liberal Arts and Sciences; see Linguistics in the catalog.

BA or BS in Informatics/MS in Informatics (Health Informatics, Human-Computer Interaction Subprograms)
The combined BA or BS in informatics/MS in informatics with a health informatics or human-computer interaction subprogram enables students majoring in informatics to begin work toward the MS while completing the bachelor's degree. Students admitted to the program may count 12 s.h. toward both the BA or BS and MS degree requirements. Offered by the Graduate College and the College of Liberal Arts and Sciences; see the MS in informatics in the catalog.

BS in Exercise Science/MS in Athletic Training
The combined BS in exercise science/MS in athletic training program enables students majoring in exercise science to begin work toward the MS while completing the bachelor's degree. Students admitted to the program may count 22 s.h. of credit toward both the BS and MS degree requirements. Offered by the Graduate College, the College of Liberal Arts and Sciences, and the Carver College of Medicine; see the MS in athletic training in the catalog.

BSE in Chemical Engineering/MS in Chemical and Biochemical Engineering
The combined BSE in chemical engineering/MS in chemical and biochemical engineering program enables undergraduate students majoring in chemical engineering to begin work toward the MS while completing the bachelor's degree. Students admitted to the program may count 12 s.h. of coursework toward both the BSE and MS degree requirements. Offered by the Graduate College and the College of Engineering; see Chemical and Biochemical Engineering in the catalog.

BSE in Any Engineering Major or CLAS Bachelor's Degree/PhD in Electrical and Computer Engineering
The combined BSE or CLAS bachelor's degree/PhD in electrical and computer engineering enables undergraduate students in any College of Engineering BSE or in any CLAS bachelor's program to begin work toward the PhD while completing the bachelor's degree. Students admitted to the program may count 12 s.h. of coursework toward both the bachelor's degree and PhD degree requirements. They also may count an additional 6 s.h. toward the PhD degree requirements before they have been awarded the bachelor's degree. Offered by
the Graduate College and the College of Engineering; see Electrical and Computer Engineering in the catalog.

BSN in Nursing (RN Subprogram)/DNP in Nursing
The combined BSN in nursing (RN subprogram)/DNP in nursing program enables students to begin work toward the DNP while completing the bachelor's degree. Students admitted to the program may count 9 s.h. of credit toward both the BSN and DNP degree requirements. Offered by the Graduate College and the College of Nursing, see the Bachelor of Science in Nursing, BSN (nursing-RN subprogram) and the Doctor of Nursing Practice, DNP in the catalog.

Non-UI Undergraduate to Graduate Degree Programs (U2G)
The following graduate degrees offer U2G programs which are paired with bachelor's degree programs at other colleges and universities.

Coe College, Cornell College, Grinnell College, or Luther College Bachelor’s Degree/MPH (Biostatistics, Community and Behavioral Health, Epidemiology, Occupational and Environmental Health, Policy Subprograms)
The combined program enables undergraduate students at Coe College, Cornell College, Grinnell College, and Luther College to begin work toward the MPH while completing the bachelor's degree. Students admitted to the program may enroll in University of Iowa graduate-level courses to count toward the MPH degree while they are simultaneously completing the bachelor's degree. Offered by the Graduate College and the College of Public Health; see the Master of Public Health, MPH in the catalog.

Grinnell College BA in Computer Science/MCS
The combined program enables undergraduate students majoring in computer science at Grinnell College to begin work toward the MCS while completing the bachelor's degree. Students admitted to the program may transfer Grinnell College coursework that articulates to 6 s.h. of graduate-level credit toward University of Iowa MCS degree requirements. Students admitted to the program may enroll in University of Iowa graduate-level courses to count toward the MCS degree while they are simultaneously completing the bachelor's degree. Offered by the Graduate College and the College of Liberal Arts and Sciences; see Master of Computer Science, MCS in the catalog.

Nankai University Bachelor's Degree/MS in Actuarial Science
The combined program enables undergraduate students at Nankai University in Tianjin, China to begin work toward the MS while completing the bachelor's degree. Students admitted to the program may enroll in University of Iowa graduate-level courses to count toward the MS degree while they are simultaneously completing the bachelor's degree. Offered by the Graduate College and the College of Liberal Arts and Sciences; see Statistics and Actuarial Science in the catalog.

Nankai University Bachelor's Degree/MS in Statistics
The combined program enables undergraduate students at Nankai University in Tianjin, China to begin work toward the MS while completing the bachelor's degree. Students admitted to the program may enroll in University of Iowa graduate-level courses to count toward the MS degree while they are simultaneously completing the bachelor's degree. Offered by the Graduate College and the College of Liberal Arts and Sciences; see Statistics and Actuarial Science in the catalog.

Combined Graduate Degree Programs

AuD/PhD in Speech and Hearing Science
The combined AuD/PhD in speech and hearing science program is designed for students who would like to practice audiology and hold a faculty position at a university. Students admitted to the program work concurrently toward the Doctor of Audiology and the Doctor of Philosophy; they may count 30 s.h. toward the requirements of both degrees. Offered by the Graduate College and the College of Liberal Arts and Sciences; see Communication Sciences and Disorders in the catalog.

MA in French and Francophone World Studies/MFA in Literary Translation
The Department of French and Italian and the Literary Translation Program collaborate to offer a combined Master of Arts in French and Francophone world studies and a Master of Fine Arts in literary translation. Students interested in writing in its different forms—creative, academic, and translation—will find the University of Iowa to be the ideal place to develop their talents and an attractive option for more diversified career preparation. A separate application and admission to each degree program is required. For more information, review the admissions requirements for French and Francophone world studies and literary translation. Students in the combined program earn both degrees by completing a minimum of 60 s.h. of coursework, fewer semester hours than if each degree was completed separately. Qualified students may be eligible for up to three years of full funding for a teaching assistant (TA) position.

MA in Library and Information Science/Certificate in Book Studies/Book Arts and Technologies
The combined MA in library and information science and Certificate in Book Studies/Book Arts and Technologies prepares students for careers in special collections librarianship. Students admitted to the program receive training in the management of varied types of special collections, such as rare books, manuscripts, archives, graphics, music, and ephemera. Offered by the Graduate College; see the MA in library and information science and the Certificate in Book Studies/Book Arts and Technologies in the catalog.
MA in Library and Information Science/
MFA in Book Arts
The combined MA in library and information science/MFA in book arts program allows graduate students with strong interests in the physical book to acquire training in the book arts, book history, and material book studies. The earned expertise in the production and legacy of the book as a physical artifact combined with expertise in library and information science can be an asset for those focused on careers in special collections libraries and archives. Students in the combined program earn both degrees by completing fewer semester hours than if each degree was completed separately. Offered by the Graduate College; see the MA in library and information science and the MFA in book arts in the catalog.

MA in Library and Information Science/
PhD in English
The combined MA in library and information science/PhD in English program prepares students for careers in academic libraries as humanities subject specialists, reference and instruction librarians, first-year experience librarians, special collections librarians and curators, and archivists. It also enhances the research profiles and methodological toolboxes of digital humanists as well as archival historicists, in addition to improving pedagogical skills. Offered by the Graduate College and the College of Liberal Arts and Sciences; see the MA in library and information science and the PhD in English in the catalog.

Combined Graduate and
Professional Degree Programs
Graduate Degrees/Certificates in
Business Fundamentals, Finance, Leadership, Marketing
Students can pursue a professional Certificate in Business Fundamentals, Finance, Leadership, or Marketing concurrently with their graduate degree. With graduate program approval, students may count up to 9 s.h. from a professional certificate toward their graduate degree. With approval from the professional certificate program, students may count up to 3 s.h. from any graduate degree program toward their certificate. Offered by the Graduate College and Tippie Professional Programs (Tippie College of Business), see the professional Certificates in Business Fundamentals, Finance, Leadership, or Marketing in the catalog.

JD/Graduate Degrees
The College of Law and several Graduate College programs and schools have developed combined programs in which students pursue the Juris Doctor (JD) degree and a graduate degree concurrently. Offered by the Graduate College and the College of Law; see the Manual of Rules and Regulations on the Graduate College website and the Juris Doctor, JD in the catalog.

MD/PhD (Medical Scientist Training Program)
The combined Doctor of Medicine/Doctor of Philosophy program prepares students for careers in academic medicine, with emphasis on basic and clinical research. Offered by
