

# Immunology, PhD

## Combined Programs

### PhD/MD

Students may work toward the Doctor of Medicine degree and a PhD in immunology in a combined degree program offered by the Graduate College and the Carver College of Medicine. Applicants must be admitted to both programs before they may be admitted to the combined degree program. See the Medical Scientist Training Program (Carver College of Medicine) in the catalog. Students enter the immunology program after the third year of medical school. 31 s.h. of medical school coursework may be applied toward the PhD in immunology.
