

# Immunology

## Director

- Kevin L. Legge (Microbiology and Immunology/Pathology)

**Graduate degree:** Ph.D. in immunology

**Faculty:** <https://immuno.grad.uiowa.edu/people/faculty>

**Website:** <https://immuno.grad.uiowa.edu/>

The Immunology Program provides interdisciplinary training in the concepts and methodologies of basic and applied immunology. Faculty members are involved in a variety of research projects dealing with the immune system at all levels—structural, functional, cellular, biochemical, and molecular. Students take coursework in immunology and related disciplines and are directly involved in laboratory research throughout their study.
