Informatics, MS

The MS in informatics is a non-research, course-based program for students who wish to enhance their careers with advanced knowledge of informatics. The coursework combines core informatics courses with cognate courses in one of these areas: geoinformatics, health informatics, or human-computer interaction.

Learning Outcomes
Students will exhibit:

• understanding of computational thinking concepts,
• experience in software development,
• expertise in data analytics methods,
• comprehension of and practice applying human-centered computing concepts,
• awareness of professional ethics, and
• domain-specific knowledge and skills related to the cognate area.

Requirements
The Master of Science program in informatics requires a total of 31 s.h. of graduate credit, including 19 s.h. of core courses and 12 s.h. of coursework in a chosen subprogram: geoinformatics, health informatics, or human-computer interaction. Students must maintain a Graduate College Program grade-point average of at least 3.00.

The non-research, course-based program is for students who wish to enhance their careers with advanced knowledge of informatics. Students must also complete the requirements for the degree as described in the Manual of Rules and Regulations, Section X, on the Graduate College website.

The MS with a major in informatics requires the following coursework.

Core Courses
All students complete the following core courses.

Programming
Course # Title Hours
This course:
CS:5110/IGPI:5110 Introduction to Informatics 3
One of these:
CS:3210 Programming Languages and Tools 3
CS:3980 Topics in Computer Science I 3
GEOG:5055/IGPI:5055 Geospatial Programming (required for geoinformatics cognate) 3

Statistics
Course # Title Hours
One of these:
BIOS:4120 Introduction to Biostatistics (required for health informatics cognate) 3
STAT:4143/PSQF:4143 Introduction to Statistical Methods 3

Data Science
Course # Title Hours
One of these:
BAIS:6480/IGPI:6480 Knowledge Discovery 3
STAT:4540/BAIS:4540/DATA:4540/IGPI:4540 Statistical Learning 3
An approved course (consult advisor) 3

Databases
Course # Title Hours
One of these:
CS:4400 Database Systems 3
GEOG:4580/IGPI:4581 Introduction to Geographic Databases (required for geoinformatics cognate) 3

Human Factors
Course # Title Hours
One of these:
CS:4500 Research Methods in Human-Computer Interaction 3
CS:4510 Human-Computer Interaction for Computer Science 3
GEOG:5540/IGPI:5540 Geographic Visualization (required for geoinformatics cognate) 3

Ethics
Course # Title Hours
This course:
CS:5980 Topics in Computer Science III 1

Subprograms
Students choose one of three subprograms and complete the requirements.

Geoinformatics Subprogram
Course # Title Hours
All of these:
GEOG:3500/IGPI:3500 Introduction to Environmental Remote Sensing 3
GEOG:3520/IGPI:3520 GIS for Environmental Studies 3
GEOG:3570 Light Detection and Ranging (LiDAR): Principles and Applications 3
Health Informatics Subprogram

CS:4500
CS:4510

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. It is recommended that students apply to the Graduate College for admission to the MS program before entering the spring semester of their first year in the pharmacy program. For more information, see Doctor of Pharmacy, PharmD in the College of Pharmacy section of the catalog.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website. They also must meet the admission requirements of the informatics subprogram they want to enter; see PhD and MS Admission on the program’s website.

Academic Plans

Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

- Health Informatics Subprogram [p. 3]
- Human-Computer Interaction Subprogram [p. 3]

MS (Health Informatics Subprogram)/PharmD

The purpose of the combined program is to provide an opportunity for professional students in the College of Pharmacy to receive formal training in health informatics in addition to training in pharmacotherapy and health care. Students completing the degree program receive an MS in informatics with the health informatics subprogram (without thesis) from the Graduate College and a PharmD from the College of Pharmacy. Students develop special expertise in information technology, including management of electronic health records, health information exchange standards, electronic prescribing, medication management, decision support, and other competencies.

The combined program requires a total of 34 s.h. beyond the bachelor’s degree. Courses that can be used to count toward both programs include 19 s.h. of core courses, 6 s.h. of courses from the health informatics cognate, and 9 s.h. from the PharmD curriculum selected from the following.
