

# Informatics, Ph.D.

## Admission

Students applying to the Ph.D. program do not need a master's degree prior to admission. Students who hold a master's degree upon entering the Ph.D. program may apply to use transfer credit from their master's degree courses toward their Ph.D. program requirements.

Students applying to the Ph.D. program who are not selected for admission are automatically considered for admission to the M.S. program if they do not already hold a master's degree.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website. They also must meet the admission requirements of the informatics program; see Ph.D. and M.S. Admission on the program's website.
