a Chemistry does not count toward the biology minor, but CHEM:1110 is a prerequisite to the first biology course and is required for most other biology courses. CHEM:1120 will be required for some but not all upper-level biology courses.

b Enrollment in chemistry courses requires completion of a placement exam.

c BIOL:1411 and BIOL:1412 are both required before taking upper-level biology courses.

d Any biology course numbered 2000 and above except BIOL:2120, BIOL:3999, BIOL:4995 and BIOL:4999. Students may count BIOL:3994 (maximum of 3 s.h.) and BIOL:4897 (maximum of 3 s.h.) only once toward the minor. Consult an advisor for approved Lakeside laboratory courses toward the minor.
