Chemistry, BA

Combined Programs

BA/MAT (Science Education Subprogram)

Students who are interested in pursuing a graduate degree in teaching may apply to the combined Bachelor of Arts/Master of Arts in Teaching with a science education subprogram offered by the College of Liberal Arts and Sciences and the College of Education. Designed for undergraduates majoring in biology, chemistry, environmental sciences, or physics, the combined program enables students to earn a BA and MAT in five years by beginning to earn graduate credit during their fourth year of undergraduate study and by counting a maximum of 19 s.h. of qualifying credit toward both degrees. For more information, see "Combined Program" under Science Education in the Master of Arts in Teaching (College of Education) section of the catalog. Interested students should consult an advisor.
