

# Film and Video Production, MFA

## Learning Outcomes

Students will:

- develop an artistic vision that will inform an emerging practice of film and video production, and begin to develop a portfolio;
- learn the advanced technical aspects of production from cinematography and editing to sound design;
- acquire a broad range of knowledge in film and media theories and histories;
- develop skills and experience in academic research and critical writing; and
- develop professionally, including showing work at festivals, applying for grants and residencies, acquiring requisite skills for academic employment, and learning the skills for successful job applications.
