Communication Sciences and Disorders

Chair
- Eric J. Hunter

Undergraduate major: speech and hearing science (BA)
Undergraduate minor: communication sciences and disorders

Graduate degrees: MA in speech pathology and audiology; AuD; PhD in speech and hearing science

Faculty: https://csd.uiowa.edu/people
Website: https://csd.uiowa.edu

Courses

Communication Sciences and Disorders Courses

CSD:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

CSD:1015 Introduction to Speech and Hearing Processes and Disorders 2 s.h.
Introduction to communication sciences and disorders field; clinical and research works; wide range of readings; survey course with less emphasis on specific disorders.

CSD:1800 Aging Matters: Introduction to Gerontology 3 s.h.
Overview of the field of gerontology from a bio-psycho-social framework; how the human body and brain age, effects of these biological changes on physical and cognitive functions, and interaction of these individual factors with societal contexts; broad perspective to give students a foundation in gerontology, paving the way for more advanced courses in biology of aging, psychology of aging, and global aging; for students from a wide range of disciplines and levels, no prior knowledge of aging required. GE: Social Sciences. Same as ASP:1800, NURS:1800, SSW:1800, TR:1800.

CSD:2110 Phonetics: Theory and Applications 3 s.h.
Basic concepts: articulatory and acoustic description of speech sound production, dialect variations, and language differences; development of phonetic transcription skills with emphasis on English phonetics and clinical applications to developing and disordered speech.

CSD:2111 Basic Acoustics for Speech and Hearing 3 s.h.
Principles of sound, simple harmonic motion, sound pressure and intensity, decibels, complex waves, Fourier analysis, resonance and filters, distortion, transmission of sound. Requirements: completion of departmental math requirement (MATH:1440 or MATH:1460 or MATH:1850).

CSD:3097 Honors Seminar 2 s.h.
Research topics and procedures in speech and hearing sciences; ongoing faculty research, research opportunities, possible research projects. Requirements: honors standing with intent to complete an honors thesis.

CSD:3112 Anatomy and Physiology of Speech Production 4 s.h.
Normal anatomy and physiology of structures used to produce speech; principles and methods for instrumental study of speech production.

CSD:3113 Introduction to Hearing Science 4 s.h.
Normal auditory process; anatomy and physiology of auditory system; subjective correlates of auditory stimuli.

CSD:3116 Basic Neuroscience for Speech and Hearing 3 s.h.
Basic anatomy, physiology of central nervous system; emphasis on neural systems involved in normal and disordered communication. Offered fall semesters. Requirements: biology, zoology, or physiology course. Same as LING:3116.

CSD:3117 Psychology of Language 3 s.h.
Introduction to scientific study of language use; language approached from a multidisciplinary perspective, integrating theories and methods of psycholinguistics, neuropsychology, and communication sciences and disorders. GE: Social Sciences. Same as LING:3117.

CSD:3118 Language Acquisition 1-3 s.h.

CSD:3119 Interdisciplinary Science of Sound and Hearing 3 s.h.
Introduction to physics of sound, biology/psychology of hearing, and audio technology; theories and experimental methods; music, speech, and environmental sounds. Same as MUS:3055, PSY:3055.

CSD:3185 Hearing Loss and Audiometry 3 s.h.
Introduction to profession of audiology; overview of hearing disorders, evaluation, and treatment; basic pure-tone and speech audiometry.

CSD:3187 Early Literacy Instruction for Young Children 3 s.h.
Service-learning involving lecture, class discussion, and student participation in an early literacy program for preschoolers; concepts and skills necessary to conduct story time groups with young children that target development of print knowledge; application of learning by reading to small groups of preschool children. Recommendations: CSD:3118. Same as EDTL:3187.

CSD:3993 Research Practicum arr.
Individual or small group participation in faculty research projects.

CSD:4029 Experiential Learning in Audiology 1 s.h.
Students build a foundation of skills to develop in advanced degree program; for students interested in obtaining an AuD or learning more about audiology. Prerequisites: CSD:3185. Requirements: third- or fourth-year standing.

CSD:4098 Honors Thesis 1-3 s.h.
Close work with a faculty mentor.
CSD:4114 Introduction to Voice Disorders 2 s.h.
Basic foundations for management of voice disorders.
Prerequisites: CSD:3112.

CSD:4115 Structural Disorders 2 s.h.
Therapy approaches used to treat speech production and
swallowing disorders associated with disorders that affect
structure and physiology of the speech and swallowing
mechanism; basic knowledge necessary for clinical practice
by clinicians who do not specialize in management of patients
with head and neck cancer, cleft palate, or neurological
disorders.

CSD:4120 Introduction to Clinical Methods and
Observation 3 s.h.
Observation of the diagnosis and treatment of a wide range
of speech, language, or hearing disorders in a variety
of settings; basic understanding of evaluation process,
goal setting, behavior management, pacing of therapy,
shaping of behavior, tracking performance/learning, and
professional and ethical behavior through observation of
clinical interactions; completion of 25 hours of observation
as required by the American Speech-Language-Hearing
Association for obtaining national certification. Prerequisites:
CSD:4145. Recommendations: senior or graduate standing in
communication sciences and disorders.

CSD:4130 Diversity, Equity, and Inclusion in
Communication Sciences and Disorders 1 s.h.
Discussion of diversity, equity, and inclusion in communication
sciences and disorders field; historical perspectives as related
to current practices. Recommendations: graduate standing
in speech language pathology, or junior or senior standing in
speech language pathology or audiology.

CSD:4140 Manual Communication 1 s.h.
Training in use of sign systems in manual communication.

CSD:4145 Developmental Language Disorders 3 s.h.
Nature of developmental disorders; basic concepts including
behavioral characteristics, developmental patterns, and
etiology theories; assessment and intervention principles in
semantics, morphology, and syntax.

CSD:4148 Developmental Speech Disorders 3 s.h.
Review of typical phonological development in children;
introduction to assessment and intervention practices for
articulation and phonological disorders in children; may
include apraxia, cerebral palsy, and cleft palate.

CSD:4165 Communication Disorders and Aging 1-2 s.h.
Introduction to speech, language, and hearing processes and
disorders among older adults; survey of characteristics of
communication and communication breakdown, remediation,
and strategies for improving communication with older adults
with communication disorders; primarily for majors and other
health care service providers. Same as ASP:4165.

CSD:4183 Introduction to Stuttering 2 s.h.
Theoretical perspectives on the nature of stuttering including
onset and development, basic phenomena, and beginning
treatment principles.

CSD:4186 Problems: Speech/Hearing Processes and
Disorders arr.
Independent readings or research experience through
mutual arrangement between student and faculty; goals and
requirements determined by participating faculty member.

CSD:4244 Rehabilitative Audiology 3 s.h.
Theory, procedures for assessment, and rehabilitation of
speech, hearing, and language deficits of people with hearing
impairment. Prerequisites: CSD:3185.

CSD:5104 Language Disorders in School-Aged
Children 3 s.h.
Emphasis on elementary grades; usually taken in conjunction
with EDTL:4192, which provides approximately 70 hours
of supervised clinical practice in elementary schools.
Recommendations: primarily for communication sciences and
disorders majors. Same as EDTL:5104.

CSD:5135 Foundations of Clinical Practice I 2 s.h.
Basic concepts of clinical practice including models of
diagnosis, fundamentals of clinical data collection and
measurement, treatment planning, and professional writing.
Corequisites: CSD:4145.

CSD:5136 Foundations of Clinical Practice II 1 s.h.
Advanced concepts of clinical practice including
professionalism, clinical decision-making, developing client-clinician alliance, examining biases and prejudices in clinical
practice, and developing empathy.

CSD:5137 Foundations of Clinical Practice III 1 s.h.
Advanced principles of clinical practice including risk
management, public policy, and models of third-party
reimbursement; professional issues.

CSD:5146 Neurogenic Disorders of Language 3 s.h.
Overview of communication disorders secondary to acquired
brain damage in adults; focus on aphasia, communication
disorders arising from dementia, right-hemisphere stroke,
traumatic brain injuries; general principles of diagnosis and
intervention.

CSD:5203 Counseling in Communication Disorders 1 s.h.
Development of appropriate intervention plans that meet
client/patient needs in collaboration with client/patient and
relevant others; communicating effectively and recognizing
needs, values, preferred mode of communication, and
cultural linguistic background of client/patient, family,
caregivers, relevant others; providing counseling to clients/
patients, family, and caregivers regarding communication and
swallowing disorders.

CSD:5213 Voice Habilitation 2 s.h.
Application of methods of intervention in development,
training, rehabilitation of vocal behavior; motor learning,
efficacy of treatment strategies, factors affecting compliance
with recommended therapy. Offered fall semesters.
Prerequisites: CSD:3112 and CSD:4114. Same as MUS:5555.

CSD:5219 Fundamentals of Laboratory
Instrumentation 2 s.h.
Introduction to instrumentation commonly used in research in
speech and hearing sciences; basic audiometric calibration.

CSD:5223 Pediatric Feeding and Swallowing
Disorders 1 s.h.
Development of anatomy and physiology of feeding and
swallowing in infants and children; assessment and treatment
of pediatric feeding and swallowing disorders. Prerequisites:
CSD:4115.

CSD:5224 System and Signal Theory for Speech and
Hearing Science 3 s.h.
Introduction to signals and systems with emphasis on their
relevance to the fields of audiology and speech-language
pathology. Requirements: introductory calculus.

CSD:5233 Aphasia 2 s.h.
Assessment, diagnosis, and treatment of aphasia and other
acquired language and cognition-based communication
or a course that provides an overview of acquired language
disorders.

<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
<th>Requirements/Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>CSD:5236</td>
<td>Neurological and Structural Disorders of Swallowing</td>
<td>3 s.h.</td>
<td>Provides future speech-pathologists with a strong foundation for career-long learning about the nature and classification of neurogenic motor-speech and swallowing disorders, symptomatology, etiology, diagnosis, treatment, and management options.</td>
</tr>
<tr>
<td>CSD:5238</td>
<td>Motor Speech Disorders</td>
<td>2 s.h.</td>
<td>Provides future speech-pathologists with a strong foundation for career-long learning about the nature and classification of neurogenic motor-speech disorders, symptomatology, etiology, diagnosis, treatment, and management options.</td>
</tr>
<tr>
<td>CSD:5240</td>
<td>Hearing Aids</td>
<td>3 s.h.</td>
<td>Hearing aids and diagnostic procedures; laboratory emphasis on measurement procedures.</td>
</tr>
<tr>
<td>CSD:5246</td>
<td>Advanced Audiology</td>
<td>3 s.h.</td>
<td>Theory and procedures for assessment of hearing loss in adult and pediatric populations; experience in test administration through supervised laboratory sessions.</td>
</tr>
<tr>
<td>CSD:5253</td>
<td>Speech Perception in Listeners with Hearing Loss</td>
<td>1-2 s.h.</td>
<td>Introduction to study of speech perception in listeners with normal hearing and those with hearing loss; overview of speech acoustics; theories of speech perception; contributions of auditory, visual, and indexical (talker-specific) information in speech signal; assessment techniques; benefits of hearing aid and/or cochlear implant use; factors influencing speech perception by children and adults with hearing loss.</td>
</tr>
<tr>
<td>CSD:5255</td>
<td>Educational Audiology</td>
<td>2 s.h.</td>
<td>Training in skills necessary for working with school-age population; case management and aural rehabilitation, amplification and classroom hearing technology, identification and assessment practices, federal legislation that affects services. Requirements: CSD:5240 for AuD students.</td>
</tr>
<tr>
<td>CSD:5256</td>
<td>Anatomy and Physiology of Hearing</td>
<td>3-4 s.h.</td>
<td>Anatomy of auditory system, cochlear mechanics, and electrophysiology of peripheral and central auditory nervous system; laboratory emphasis on physiological techniques for study of ear.</td>
</tr>
<tr>
<td>CSD:5258</td>
<td>Multilingualism and Culturally Responsive Practice in Communication Sciences and Disorders</td>
<td>3 s.h.</td>
<td>Trajectories of multilingual language acquisition in typical contexts and in context of communication disorders; connections between language, cognition, culture, and cultural-linguistic experiences to develop and apply culturally responsive speech and language assessment and intervention skills in context of cultural and linguistic diversity.</td>
</tr>
<tr>
<td>CSD:5260</td>
<td>Augmentative and Alternative Communication</td>
<td>2 s.h.</td>
<td>Theories, assessment, and intervention in augmentative and alternative communication (AAC) for individuals with severe communication disorders resulting from a variety of developmental and acquired conditions.</td>
</tr>
<tr>
<td>CSD:5282</td>
<td>Phonological Development and Disorders</td>
<td>2 s.h.</td>
<td>Advanced topics in phonological development and disorders; current theoretical approaches to phonological analysis and typical phonological acquisition applied to assessment and intervention with children who have phonological disorders.</td>
</tr>
<tr>
<td>CSD:5284</td>
<td>Advanced Fluency Disorders</td>
<td>2 s.h.</td>
<td>Fluency disorders and treatment approaches for children and adults.</td>
</tr>
<tr>
<td>CSD:5304</td>
<td>Speech Pathology Outplacement: School</td>
<td>0-4 s.h.</td>
<td>Supervised teaching and observation in speech-language pathology in an elementary school setting.</td>
</tr>
<tr>
<td>CSD:5305</td>
<td>Speech Pathology Outplacement: Non-School</td>
<td>0-4 s.h.</td>
<td>Supervised clinical work and observation in speech-language pathology in a non-school setting.</td>
</tr>
<tr>
<td>CSD:5306</td>
<td>Speech-Language Pathology Multilingual/Multicultural Outplacement: School</td>
<td>arr.</td>
<td>Supervised multilingual and multicultural teaching and observation in speech-language pathology in an elementary school setting.</td>
</tr>
<tr>
<td>CSD:5307</td>
<td>Speech-Language Pathology Multilingual/Multicultural Outplacement: Non-School</td>
<td>arr.</td>
<td>Supervised clinical work and observation in speech-language pathology in a multilingual and multicultural non-school setting.</td>
</tr>
<tr>
<td>CSD:5310</td>
<td>Scientific Writing</td>
<td>2 s.h.</td>
<td>Principles of writing for scientific posters, journal articles, grant proposals; effective communication of concepts and data. Requirements: PhD standing.</td>
</tr>
<tr>
<td>CSD:5311</td>
<td>Advanced Clinical Topics in Audiology</td>
<td>2 s.h.</td>
<td>Variety of professional issues important to clinical practice; incorporates professional and community engagement as well as service learning; topics directly related to clinical work and covered by clinical faculty and guest speakers with special expertise in each area; student presentations. Requirements: MA professional emphasis or AuD enrollment.</td>
</tr>
<tr>
<td>CSD:5313</td>
<td>Accounting and Marketing in Audiology Business Practice</td>
<td>2 s.h.</td>
<td>Introduction to business aspects of developing and managing an audiology practice related to accounting and marketing; varied professional issues important to clinical practice; topics covered by clinical faculty and guest speakers with special expertise in each area; student presentations. Requirements: MA professional emphasis or AuD enrollment.</td>
</tr>
</tbody>
</table>
CSD:5316 Professional, Ethical, and Legal Issues in Audiology Business Practice 2 s.h.
Introduction to business aspects of developing and managing an audiology practice related to professional liability, certification, and licensure; legal and ethical issues in business practice; varied professional issues important to clinical practice; topics directly related to clinical work and covered by clinical faculty and guest speakers with special expertise in each area; student presentations. Requirements: MA professional emphasis or AuD enrollment.

CSD:5317 Advanced Clinical Practice in Audiology 1 s.h.
Introduction to business aspects of developing and managing an audiology practice related to compliance, billing, coding, and reimbursement; varied professional issues important to clinical practice; topics covered by clinical faculty and guest speakers with special expertise in each area; student presentations. Requirements: MA professional emphasis or AuD enrollment.

CSD:5320 Applied Statistics and Principles of Evidence-Based Practice in Audiology 3 s.h.
Combination of applied statistics and principles of evidence-based clinical practice with emphasis on applications in audiology and hearing science; review of statistical techniques widely used in audiology research including nonparametric and descriptive statistics, correlation, regression, and ANOVA; examples taken from studies published in scientific journals in communication sciences and disorders; principles of evidence-based practice that focus on topics and methods of establishing treatment efficacy, meta analyses, levels of evidence, and methods of assessing research quality. Requirements: introductory course in statistics.

CSD:5350 Seminar in Supervision 1 s.h.
Process and procedures in clinical education and supervision in a graduate program.

CSD:5511 Introduction to Doctoral Research 1 s.h.
Topics related to development and execution of research; doctoral program, use of library, human and animal subject issues, philosophy of science, use of common research tools, reading and writing research papers, and research grant preparation.

CSD:6101 Cognitive Science of Language Proseminar I 3 s.h.
Survey of five major disciplines within language sciences: formal linguistic, communication disorders, psychological, neuroscience, and computational approaches. Requirements: graduate standing in communication sciences and disorders, linguistics, psychology, or neuroscience. Same as LING:6101, PSY:6101.

CSD:6102 Cognitive Science of Language Proseminar II 3 s.h.
Survey of five major disciplines within language sciences: formal linguistic, communication disorders, psychological, neuroscience, and computational approaches. Requirements: graduate standing in communication sciences and disorders, linguistics, psychology, or neuroscience. Same as LING:6102, PSY:6102.

CSD:6202 Vocal Pedagogy 3 s.h.
History of voice pedagogy, various pedagogical techniques of voice training, vocal anatomy, voice classification, critical listening, postural alignment, managing breath, tonal production, connecting registers, articulation, interpretation, vocal health, pharmacological effects on the voice, vocal gadgets, requirements for a professional career, teaching in the 21st century, and teaching practicum; diagnosis and correction of vocal faults. Same as MUS:6520.

CSD:6230 Psychoacoustics 2-3 s.h.
Basic properties of auditory perception or psychoacoustics from material covered in CSD:5256; perception of loudness, masking frequency selectivity, temporal processing, and spatial perception; basic perceptual properties, methods of measurement, and physiological basis for performance; properties of perception in normal ears, hearing impairment, and auditory prostheses (e.g., cochlear implants).

CSD:6240 Seminar in Audiology 2 s.h.
Topics vary; for AuD and PhD students.

CSD:6242 Hearing Aids II 2 s.h.
Evaluation and verification procedures; emphasis on advanced technologies and strategies.

CSD:6245 Pediatric Audiology 1,3 s.h.
Theory and procedures for assessment and rehabilitation of pediatric populations; laboratory emphasis on test administration.

CSD:6247 Medical Audiology 2 s.h.
Review of a wide range of pathologic conditions that have an impact on hearing; focus on understanding the underlying pathophysiology and how the disorder is diagnosed and treated.

CSD:6249 Cochlear Implants 1-3 s.h.
Introduction to cochlear implants; history of cochlear implantation, introduction to cochlear implant technology, basics of device programming and troubleshooting, candidacy issues, outcomes in children and adults; auditory rehabilitation specific to cochlear implant recipients.

CSD:6290 Auditory Evoked Potentials 3 s.h.
Introduction to the wide range of electrophysiologic measures of auditory function used in clinical practice.

CSD:6291 Vestibular Assessment 2 s.h.
Introduction to vestibular anatomy, physiology theory, and testing techniques.

CSD:6292 Advanced Rehabilitative Audiology 1-2 s.h.
Current and developing procedures for assessment and habilitation of adults and children with hearing losses.

CSD:6293 Vestibular Rehabilitation 1 s.h.
Introduction to vestibular management and rehabilitation.

CSD:6311 Professional Issues in Audiology 1 s.h.
Information on a variety of professional issues important to clinical practice; topics directly related to clinical work; written assignments required as a means for students to reflect on and share clinical experiences related to topics. Corequisites: CSD:6316. Requirements: MA professional emphasis or AuD fourth-year enrollment.

CSD:6312 Professional Issues in Audiology II 1 s.h.
Information on a variety of professional issues important to clinical practice; topics directly related to clinical work; presentations, discussions, and written assignments required as a means for students to reflect on and share clinical experiences related to topics; capstone project. Requirements: AuD fourth-year enrollment.

CSD:6316 Advanced Externship in Audiology 1 s.h.
CSD:6317 Audiology Practice: Business Start-Up 1 s.h.
Introduction to business aspects of developing and managing an audiology practice related to business start-up as well as short and long range business planning; presentation of topics by clinical faculty and guest speakers with special expertise in each area; student presentations. Requirements: MA professional emphasis or AuD enrollment.

CSD:6318 Occupational Audiology 1 s.h.
Incidence and prevalence of hearing loss; risk factors and assessment; noise exposure guidelines; hearing protection devices; education and motivation.

CSD:6319 Interprofessional Practice and Community Engagement in Communication Sciences and Disorders 1 s.h.
Advanced knowledge and experiences related to interprofessional education and practice (IPE/IPP) in communication sciences and disorders; IPE/IPP training focus on students' collaboration with multiple service providers from other professions to improve outcomes for individuals, families, and/or communities; presentation of topics by clinical faculty and guest speakers with special expertise in each area; student presentations. Requirements: MA professional emphasis or AuD enrollment.

CSD:6515 Professional Seminar 0 s.h.
Weekly presentation of research projects, ideas, and clinical initiatives by faculty, students, and guests; required for PhD, AuD, and MA-SLP first-year graduate students.

CSD:6519 Evidence-Based Practice 2 s.h.
Introduction to design and conduct of research and evidence-based clinical practice. Offered fall semesters. Recommendations: clinical graduate standing in audiology or speech-language pathology.

CSD:6538 Advanced Topics in Speech, Language, and Hearing Research 1 s.h.
Varied topics related to auditory function, assessment, and rehabilitation; discussion based.

CSD:7238 Capstone 1 s.h.
Work with a faculty mentor to complete a project that focuses on an area of student's interest.

CSD:7239 Speech-Language Pathology Capstone in Multilingualism and Culturally Responsive Practice 1-3 s.h.
Work with a faculty mentor to complete a project that focuses on multilingualism and/or multiculturalism in speech-language pathology.

CSD:7590 Research arr.
Individual laboratory research training in speech-language pathology or audiology.
