Doctor of Audiology, Au.D.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Admission to the program is competitive and each applicant's credentials are considered in relation to the credentials of others in the applicant pool. Individuals with an undergraduate g.p.a. below 3.00 are rarely admitted.

Students interested in admission to the combined Au.D./Ph.D. program are required to initially apply to the Au.D. program and be admitted. At the end of their second year in the Au.D. program, they may formally request permission to change their degree objective. If the faculty approve and a mentor is available, students transition into the Au.D./Ph.D. program.

The deadline for application is January 15. All applications to the Au.D. program must be submitted through the Central Application Service for Communication Science and Disorders (CSDCAS).

For detailed information regarding evaluation of applicants, application materials and requirements, and other matters, see Graduate Programs on the department's website.
