Doctor of Audiology, Au.D.

Combined Programs

Au.D./Ph.D. in Speech and Hearing Science

For students who are enrolled in the Au.D. program but interested in research, the Department of Communication Sciences and Disorders offers a combined Doctor of Audiology/Doctor of Philosophy program. This option is appropriate for students who have more applied research interests but would like to work in academics. The combined program requires 137 s.h. of coursework. Students must satisfy all the clinical practicum experiences required for the Au.D. as well as all of the milestones required for the traditional Ph.D. Completion time for the two degrees varies but is typically seven years. Details on applying for the combined program can be found under Admissions in this section of the Catalog. For more information, contact the director of Ph.D. studies.
