

Speech and Hearing Science, PhD

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Admission to the PhD program is based on a student's aptitude, as well as their specific area of research interest and the availability of a faculty member to serve as a mentor.

Students interested in admission to the combined PhD/AuD program are required to apply and be admitted to the AuD program initially. At the end of their second year in the AuD program, they may formally request permission to change their degree objective. If the faculty approve and a mentor is available, transition into the AuD/PhD program is approved.

The deadline for application to the PhD program is Jan. 15. Applications must be submitted through Graduate Admissions.

For more information, see Doctor of Philosophy in Speech and Hearing Science on the Department of Communication Sciences and Disorders website or contact the director of graduate studies.
