

Speech and Hearing Science, Ph.D.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Admission to the Ph.D. program is based on a student's aptitude, as well as their specific area of research interest and the availability of a faculty member to serve as a mentor.

Applicants whose first language is not English must submit official test scores to verify English proficiency. Either the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS) is acceptable to verify proficiency in English.

Students interested in admission to the combined Ph.D./Au.D. program are required to initially apply and be admitted to the Au.D. program. At the end of their second year in the Au.D. program, they may formally request permission to change their degree objective. If the faculty approve and a mentor is available, transition into the Au.D./Ph.D. program is approved.

The deadline for application to the Ph.D. program is Jan. 15. Applications must be submitted through the Office of Graduate Admissions.

For more information, see Doctor of Philosophy in Speech and Hearing Science on the Department of Communication Sciences and Disorders website or contact the director of graduate studies.
