

Speech and Hearing Science, Ph.D.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Admission to the Ph.D. program is based on a student's aptitude, their specific area of research interest, as well as availability of a faculty member to serve as a mentor.

Applicants whose first language is not English must submit official test scores to verify English proficiency. Applicants can verify English proficiency by submitting official test scores from the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS).

Students interested in admission to the combined Ph.D./Au.D. program are required to initially apply and be admitted to the Au.D. program. At the end of their second year in the Au.D. program, they may formally request permission to change their degree objective. If the faculty approve and a mentor is available, transition into the Au.D./Ph.D. program is approved.

The deadline for application to the Ph.D. program is January 15. Applications must be submitted through the Office of Graduate Admissions.

For more information, see Doctor of Philosophy on the Department of Communication Sciences and Disorders website.
