Dance, BA

Career Advancement

Careers for dance majors include professional work in performing, choreography, education, private teaching, and related areas such as arts management, technical theater, dance scholarship, or dance and physical therapy. Many graduates from the UI dance program are currently working in arts organizations throughout the United States.

The discipline and creative challenges of dance training transfer well to other careers. Students have combined dance with a second major in another field such as business or communication.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
