

# Division of Interdisciplinary Programs

## Director

Cornelia C. Lang (Physics and Astronomy)

**Website:** <https://interdisciplinaryprograms.uiowa.edu/>

The Division of Interdisciplinary Programs includes Enterprise Leadership and Interdepartmental Studies, each of which offers one BA degree.

Enterprise Leadership offers students an opportunity to study entrepreneurial business leadership within the College of Liberal Arts and Sciences. The major presents a unique blend of skills, theory, and content, encouraging students to apply their knowledge and skills to new and growing organizations. It is designed to prepare students for career success, whether they desire to be an innovator inside a large organization or aspire to be an entrepreneur and launch their own business. The program offers a combination of business and liberal arts approaches and allows students to hone their skills in innovation, entrepreneurship, communication, critical thinking, problem solving, and leadership. Enterprise Leadership offers a BA degree.

Interdepartmental Studies includes plans of study in applied human services, business studies, and health science. Each track blends coursework from a variety of departments, fostering awareness of how these career fields cut across traditional academic disciplines. Interdepartmental Studies offers a BA degree.
