Environmental Policy
and Planning, BA

Learning Outcomes
Students who earn a degree in environmental policy and planning will
be able to:

• critically analyze complex environmental problems to identify
  how they result from interactions among the physical environment
  and human societies, economies, and political systems;
• identify ways in which humans impact and are impacted by the
  environment;
• identify key stakeholders and sources of information in the
  natural and social sciences to consider in developing solutions to
  environmental problems;
• explain the role of policy and planning in addressing
  environmental issues locally, regionally, and globally;
• work collaboratively in interdisciplinary teams to design
  approaches to managing environmental problems; and
• identify and implement key tools and methods for environmental
  planning and policy making.
